Re: Transfer Nos. 82573 (E&M Trust)

Dear James,

This letter will confirm that Cub River Irrigation Company is withdrawing its protest against Application for Transfer No. 82573 filed by E&M Trust. As discussed at the pre-hearing conference held Monday, October 8, 2018, this protest is being withdrawn subject to a condition that E&M Trust file an application for a stockwater water to divert water from the same point of diversion during the non-irrigation season, the intent being that this will minimize the amount of water that may discharge into the Cub Canal.

Should you have any questions, please feel free to give me a call.

Sincerely,

DON BALDWIN
