RE: Water Right 22-7749

Dear Water Right Holder(s):

On September 19, 1988, you submitted an application for permit to divert water from a spring tributary to Horse Creek for stock water. The spring was advertised as being in Township 7 North, Range 45 East Section SWNW. On January 27, 1993, the Department issued permit 22-7749. The permit described the point of diversion as T7N R45E Section 10 SENW. On October 31, 2000, a Department employee conducted a beneficial use exam and found the point of diversion within T7N R45E Section 16, NENE.

The license was issued as Horse Creek tributary to Dry Creek. I am sending you this letter in the hopes of clarifying both the point of diversion and the place of use. I have enclosed maps to help identify the point of diversion and place use to we get the point of diversion and place use correct. Please clearly mark on the map the point where water is diverted from the natural channel and the area where the water is used. The natural channel is the original path that water ran from the spring. The ditch would be the channel that was constructed to deliver the water to your property. It appears that what is referred to as the ditch is actually Horse Creek.

I have also enclosed a copy of the water right report and a transfer application. Applications for changes pursuant to Idaho Code § 42-221.O.8 require a filing fee of \$50 per water right:

For an application to change only the legal description for the place of use or the point of diversion when there will be no physical change in the location of the place of use or the point of diversion and no unauthorized physical change in the location of the place of use or the point of diversion has occurred inconsistent with the decree, license or transfer defining the water right, the total filing fee shall be \$50.00 per water right.

If you have any questions please do not hesitate to contact me at (208) 287-4881 or email at sandra.thiel@idwr.idaho.gov

Sincerely,

Sandra Thiel

Sr. Water Resource Agent
