Subject: RE: Question on renumbering at Application for Permit stage (Basin 96 & 97)

Shaun,

Use the [Split or Renumber Water Rights](#) application to renumber the application to the new basin. Leave a comment noting the renumber is needed to identify correct basin. This will use your data entry effort by copying it all to the new number, leave a comment in the original number & create a pedigree trail from the original to the new.

Double check that the original record is not "Active" status when you complete the process. We only want one "Active" record when you are done.

Thanks!

Subject: Question on renumbering at Application for Permit stage (Basin 96 & 97)

Pam:

I noticed a new Application for Permit (97-7555) should have received a Basin 96 number instead of the Basin 97 when completing data entry this morning.

Do I need to change status on Application 82737 (97-7555) in Workflow, just do the re-numbering, or do both. The Application hasn't gone out for Advertising yet.

Thanks, and Congrats on your new position.
