REQUEST FOR EXTENSION OF TIME DEFICIENCY LETTER

RE: Permit Nos. 65-23546 & 65-23547

Dear Permit Holder:

On October 1, 2018, the Department received the Requests for Extension of Time (extension request) forms you submitted for the above referenced permits. IDWR staff was not aware that the (extension requests) had been submitted and inadvertently issued a lapse notice for your permits on October 5, 2018. The Department considered your extension requests filed timely, and has restored your permits to active status in the water rights database.

Upon review of the extension request forms submitted it was unclear as to what if any development occurred for the permits mentioned above. I spoke to you just after receiving the extension forms. During our conversation it was my understanding that the water projects listed under both permits have been fully completed, and that you meant to file the Statement of Completion forms for these permits. **As of the date of this letter, the Department has not received anything that would replace the extension requests.**

If you do need to keep your extension requests filed for these permits, you could modify your extension requests to reflect (5) year extensions in lieu of the (1) year currently requested on each form. I am enclosing copies of the extension requests that were submitted so that you may modify the amount of time you requested, but only make the modifications if you need additional time to put the water to full beneficial use.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. Your permit allowed the initial 5 years. These extension requests are considered your last extension requests allowed under due diligence or good cause.

Please note that a water right in the permit stage is considered to be personal property of the permit holder of record with the Department. In order to change the ownership of a water right permit you would need to file an Assignment of Permit form with the Department, and include a \$25.00 filing fee.

I have enclosed two (2) Statement of Completion forms and an Assignment of Permit form for your use. For your reference enclosed are copies of both permits. The fees you paid at the time of filing the extension requests will be reapplied upon receipt of the Statements of Completion.

Please submit all forms that are appropriate within fifteen **(15) days** from the date of this letter. If nothing further is provided, the department will move forward with processing your extensions as submitted.

If you have any questions concerning this matter, please contact me at (208) 287-4945.

Sincerely,

A handwritten signature in black ink, appearing to read "Darla Block", with a stylized flourish at the end.
