ASSIGNMENT OF APPLICATION FOR PERMIT

To change the ownership of an application for permit

I, Hern Water System, hereby assign to John Hern
 Current applicant New applicant(s)
 of, Box 1060 Coeur d'Alene ID 208 765-3115
 New owner's address including city, state and ZIP Phone

All my right, title, and interest in and to Application for Permit No(s): 95-17620
 to appropriate the public waters of the State of Idaho.

OR (for partial assignments)

The following described portion of my right, title, and interest in and to Application for Permit No(s):

_____, to appropriate the public waters of the State of Idaho.

Describe in detail the portion of the application for permit assigned, listing the number of acres in each 40 acre subdivision, point of diversion location, and amount of the water in cubic feet per second.

Does the new applicant own the property at the:

Point of diversion? ☒ Yes ☐ No
 Place of use? ☒ Yes ☐ No

If no, describe the arrangement enabling the new applicant to access the point of diversion and/or the place of use:

Dated this 19 day of Oct, 2018.

Bob Haynes Authorized Rep
 Signature of current applicant Title (if applicable) Signature of current applicant Title (if applicable)

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

MUNICIPAL WATER RIGHT APPLICATION CHECKLIST

This checklist must be completed and submitted with an application to appropriate water for municipal purposes. There are two types of permits for municipal water use. The first type of municipal permit provides water for reasonably anticipated future needs (**RAFN**) over a defined planning horizon.¹ The second type of municipal permit, called **non-RAFN**, provides water solely for use to meet needs that will arise in the near-term (five years).² Each type of municipal water use has a distinct set of review requirements.

Applicant Name: Hern Water System

1. Type of Municipal Provider. Applicant must qualify as a Municipal Provider to obtain a water right for municipal purposes. See [Idaho Code § 42-202B \(5\)](#). Check one:

- ☐ Type 1 - Municipality
☐ Type 2 - Franchise or political subdivision supplying water for municipal purposes
☒ Type 3 - Corporation or association regulated as a "public water supply" system by IDEQ

- ☒ Attach documentation of qualification as a Municipal Provider. See [Idaho Code § 42-202\(2\)](#).
☐ Check here if you are a Type 3 provider proposing to develop a new municipal system but have not yet received recognition as a Public Water Supply by Idaho DEQ.

- 2a. List existing water rights (permits, licenses, decrees, and beneficial use claims) available to the applicant for municipal needs. These rights may or may not have a purpose of use expressly defined as "municipal." Include a separate attachment as needed.

Right Number	Nature of Use	Diversion Rate (cfs)	Annual Volume (acre-feet)	Service Area
None				
Total		*	*	

* Be sure to account for any combined volume and/or diversion rate limits in the approval conditions of each right listed.

- 2b. List any overlapping water providers within your service area, such as irrigation districts, canal companies, or municipal providers:

None

- 3a. Currently or within five years will your municipal water system demand exceed the total diversion rate or annual volume authorized by the water rights listed in item #2a?

- ☒ Yes, see item #4
☐ No, see item #3b

- 3b. Are you planning to replace an existing point of diversion, but will not develop a new water source nor exceed the total authorized diversion rate and volume of your current water rights?

- ☐ Yes. Please file an Application for Transfer of Water Right *instead* of an Application for Permit.
☐ No, I am filing this Application for Permit for reasonably anticipated future needs (RAFN) pursuant to [Idaho Code § 42-202B\(8\)](#). See item #4.

¹ For a thorough discussion of RAFN water rights, see IDWR's *Recommendations for the Processing of Reasonably Anticipated Future Needs (RAFN) Municipal Water Rights at the Time of Application, Licensing, and Transfer* (Application Processing Memorandum No. 74).

² For a thorough discussion of non-RAFN water rights, see IDWR's Application Processing Memorandum No. 18.

OCT 28 2018 1

AUG 27 2018

IDWR / NORTH

4. Please specify the term for which you are making an application for permit. See [Idaho Code § 42-202B\(7\)](#). Check one:
- ☒ Non-RAFN: (planned water system improvements and beneficial use of the entire quantity of water will occur within 5 years). Go to item #5.
 - ☐ RAFN (water system improvements will occur within 5 years, but full water usage may take longer).³ Specify planning horizon: _____ years. Ending year of planning horizon: 20____. Skip to item #6.
5. Non-RAFN application. Per [Water Appropriation Rule 40.05.d.i](#), attach a water requirement narrative to your application. It should include the following information:
- ☒ Attach a map of the municipal water service area defined by [Idaho Code §42-202B\(9\)](#). If applicable, map should delineate neighboring service areas associated with other municipal water providers.
 - ☒ Current water demand within the municipal service area expressed in average day demand, maximum day demand, and peak hour demand.
 - ☒ The required diversion rate during the peak and the average use period at the end of your project (5 years maximum). Typically, these values would be average day demand, maximum day demand, peak hour demand, and supporting information. State the capacity of any reservoirs which will be used to meet peak demand. Do not include demand solely for fire protection. If your fire protection demand exceeds your other municipal needs, you may request an appropriation for fire protection as a separate beneficial use.
 - ☐ Proposed future annual diversion volume needed by the end of your project (required only for providers not serving an incorporated municipality). Include a copy of your approved preliminary plat and the calculation method used to reach the requested volume.
 - ☒ Current and proposed capacity of entire diversion system (pumps).
 - ☐ If you are a Type 3 municipal provider, do you have a plan for assigning ownership of the water right permit to a subdivision HOA or other local entity? If so, attach a relevant excerpt from your CC&Rs or a description of the ownership change agreement between the HOA and the developer.
6. RAFN application.
- ☐ Attach a map of the current municipal water service area and the service area as it will be at the end of the planning horizon. Provide justification for inclusion of areas currently served by another municipal provider or by large industrial, commercial, or domestic water systems. Areas overlapped by conflicting comprehensive land use plans may not be included. See [Idaho Code § 42-202\(2\)](#) and [§ 42-202B\(9\)](#).
 - ☐ Attach justification for the proposed planning horizon. The planning horizon should be consistent with water infrastructure planning standards and current land use planning documents for the service area. See [Idaho Code § 42-202\(2\)](#) and [§ 42-202B\(7\)](#).
 - ☐ Attach a population projection within the service area over the planning horizon. The population projection should be based on planning and demographic studies, standard statistical methods, and evaluation of geography and other limiting factors. See [Idaho Code § 42-202\(2\)](#) and [§ 42-202B\(8\)](#).
 - ☐ Attach an evaluation of the water demand within the service area at the end of the planning horizon. Evaluate unaccounted for water (UAW) separate from municipal use. Do not include demand solely for fire protection. See [Idaho Code § 42-202\(2\)](#) and [§ 42-202B\(8\)](#). If your fire protection demand exceeds your other municipal needs, you may request an appropriation for fire protection as a separate beneficial use.
 - ☐ Attach a gap analysis: [Municipal Demand in Ending Year] x [UAW Factor] – [Sum of Existing WR Diversion Rates] = RAFN Application Diversion Rate.

³ Per [Idaho Code § 42-204\(4\)](#), the time for completion of works and application of the water to full beneficial use under any permit involving the diversion of two (2) or more cubic feet per second [...] may be extended by the director of the department of water resources upon application by the permittee for an additional period up to ten (10) years beyond the initial development deadline contained in the permit [...], provided the permittee establishes that the permittee has exercised reasonable diligence and that good cause exists for the requested extension.

Hern Water System

The Hern Water System serves approximately 77 people through 7 connections. The system should be considered "built out" as it is in Kootenai County but is surrounded by the City of Coeur d'Alene. The system consists of an 8 inch well with a 10HP pump rated at 25 gpm and two 130 gallon pressure tanks. The system operates between 60 and 80 psi. A small fire pond is also part of the system. The surface dimensions of the pond are approximately 30ft by 40ft with a maximum depth of about 5 ft.

Businesses utilizing the system are generally open five days a week. The maximum daily demand is approximately 3850 gpd. Average daily demand is approximately 2850 gpd. Peak hourly demand is approximately 575 gph. Maximum yearly volume is expected to be approximately 3.2 Acre-Feet.

Application For Permit No. 95-17620

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 11/1/2018 and 11/8/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman

Dear Department of Environmental Quality:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right applications. You can find copies of the applications attached to the email and also at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of the applications as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is November 19, 2018.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the applications.

Thank you,

Tammy

MEMORANDUM

To: Water Right Application 95-17620

From: Adam Frederick AF

Date: 10/19/2018

Re: Application for a Permit to Appropriate Water within the State of Idaho.

A complete application was received on August 8, 2018 in the name of Hern Water System for municipal purposes. After consulting with the representative, Bob Haynes, the application was changed to commercial, domestic, and fire protection uses. Because the diversion rate did not increase and the new uses are covered under municipal purposes, there is no need to advance the priority date. The corrected application was submitted on October 17, 2018 in the name of John Hern. On October 19, 2018 Hern Water System assigned the application to John Hern.

Subject: Hern Water System 95-17620

Doug & Adam,

Here are the snippets from my conversation with Bob Haynes:

- Park has been there and in operation since the 1960's/1970's, without water right. The park will never get bigger, it cannot further developed without being required to connect to City sewer, at which time it would be annexed by the City.
- Bob reported that Mr. Hern had filed an adjudication claim, but that IDWR rejected it, because it is nonexempt, and also that it failed to comply with the mandatory permit system date for GW of 1963.
- No irrigation. Pond for fire protection drafting only, there are no fire hydrants. Per Bob, there is some industrial (production), and some commercial (powder-coating).
- Bob was very reluctant to pursue the Com/Ind/FP uses route.

Based upon my conversation with Bob, as time permits, I'll move forward in producing an evaluation of the application, as a NonRAFN.

Thanks,
Joe

Re: Hern Water System Incomplete Application for Permit (Municipal Checklist)

Dear Representative:

Idaho Department of Water Resources (IDWR) received the Application for Permit that you submitted for Hern Water System on August 8, 2018. IDWR discovered, upon review of the Application, that a current, completed, Municipal Water Right Application Checklist was not included.

You indicated in a subsequent telephone conversation that you were not at home but would provide a completed copy of the current Municipal Water Right Application Checklist to accompany the Hern Water System Application. Please be advised that IDWR has not received the Checklist as of today's date. A blank copy of the Checklist is enclosed for your convenience.

Please telephone me at (208) 762.2816 if you have questions.

Sincerely,

Shaun M. Maxey
Sr. Water Resource Agent
Idaho Department of Water Resources, Northern Region

Enclosures: Copy of current Application For Permit & Municipal Checklist form for completion & return to IDWR

Subject: Municipal Water Right Application Checklist for Hern Water System Application

Bob:

I'm reviewing the Hern Water System Application for Permit. I don't have a completed Municipal Water Right Application Checklist for this Application. There is a link to the Checklist on Line 8c of the Application instructions on our web site.

Thanks,

Shaun Maxey
