1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

WATER SUPPLY BANK LEASE CONTRACT No. 854

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
13. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
14. The period of use for the irrigation described in this approval may be extended to a beginning date of March 1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before March 15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than April 29, 2009.

Dear Lessor:

Water right **63-32256** was leased into the Water Supply Bank (Bank) as of October 3, 2018, in accordance with the enclosed executed lease contract. **Your water right, as described on the lease contract, is considered leased into the Bank and should remain unused until it is formally released from the Bank.** More information and further restrictions placed on your water right while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right will automatically be released from the Bank on **December 31, 2023**, unless the right is released earlier by the Water Resource Board (Board). This form is available on our public website at www.idwr.idaho.gov. **Please note your water right may not be available for immediate release if it has been rented or is being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

Jean,

Good afternoon! The right proposed for lease is within the South Canyon Co. ground water concern area. This is an area where ground water levels have been declining and new permit applications are often protested. It might be helpful to note the lease review that this right is located in this area so that it might be used primarily for rental applicants within the same South Canyon Co. ground water concern area. No other local area concerns come to mind for lease of this right into the bank. Please let me know if you have any questions. Thank you for the opportunity to comment.

13	Narrative: The Department received this application on October 3, 2018. Julie Schelhorn, current owner, signed the application. The applicant wishes to place 38 of 40 acres in the Bank through the 2023 season. This right was decreed in 2009 and these acres were placed in the Bank in 2014-2018. Forfeiture is not an issue. There are no overlapping rights. This is a ground water right and not currently within a WD. Comments from region: This right is within the South Canyon Co. GW concern area. This is an area where GW levels have been declining and new permit applications are often protested. Rentals of this right should be used primarily within the same South Canyon Co. GW concern area.
