RE: Withdrawing Proof of Beneficial Use for Permit 85-15729

Dear Mary,

The Department of Water Resources received your request to withdraw your Statement of Completion for water permit 85-15729. Please consider the request approved. Your proof due date is August 1, 2020. You will receive a proof due notice 60 days in advance of that date.

When we spoke on the phone, I told you a water right was not needed for a domestic use from a well if you didn't exceed 13,000 gallons per day, the use is limited to one home and were not irrigating over ½ acre of land. That is considered a domestic exemption. After reviewing your water permit further, it seems that the well associated with this permit is a shared well. That means, you will need a water right for the domestic use on the property associated with this permit for domestic use, unless a new well is drilled because it doesn't fit the domestic exemption description.

The filing fee of \$50 will be refunded and will be sent to you from the State Controller's Office.

If you have any questions regarding this letter, please contact me at (208) 287-4942. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Jean Hersley".

Subject: Mary Mastro Permit for water right

Hello,

After our phone conversation yesterday my husband and I have decided that the best thing for us is..... to wait and withdraw our Proof of Beneficial Use Permit for the two years remaining on the extension and then resubmit for both by August 1, 2020.

I am to understand that at that time we will have to resubmit showing a home or a trailer on the property using water. For now we have a Permit 85-15729 for stock water and later a license for the stock water.

Thank you for your time,

Notice of Intent to Void Permit

RE: Water Appropriation Permit 85-15729

Dear Permit Holders:

In 2010, Idaho Department of Water Resources (Department) issued permit 85-15729 authorizing Mary J. Carter to develop a right to divert 0.06 cfs from groundwater for domestic and livestock purposes in Section 9, Township 33 North, Range 04 West. Under the terms of the permit, the development was to have been completed by August 1, 2015. In July 2012, the permit was assigned to Mary J. Mastro, a name change due to marriage. In March of 2015, the Department extended your time to establish a beneficial use of water as authorized by the permit to August 1, 2020. On September 10, 2018, the Department received your Proof of Beneficial Use statement indicating you had completed your development and put the water to beneficial use. However, on September 14, 2018 the Department conducted an in-house field exam using aerial photography but we could not find any evidence of a home, structure or stock tank located at the proposed place of use. Therefore, we could not verify that a beneficial use of water has been developed in accordance with your permit.

An email was sent to you on September 14, 2018 requesting information verifying a home on the property or a recreation vehicle parked on the property. If the water is not being used for domestic or stockwater purposes, the Department will not be able to license the permit. However, you were given the option to withdraw your Proof of Beneficial use and put the water to domestic use in the two years remaining on your Extension of Time.

The Department will withhold further action on the permit for thirty (30) days. If we do not receive a response from you by this date, I will take action to void the permit under the provision of Section 42-219(8) of the Idaho Code.

If you have any questions, please contact me at 208-287-4942.

Respectfully,

Jean Hersley

Subject: Water Permit 85-15729

The Department of Water Resources (Department) is in the process of reviewing water permit 85-15729 for licensing. As I was looking at aerial photography of your property, it appears no house has been built. Is there a trailer or RV parked on the property? If there isn't, the Department will not be able to license the domestic portion of this right.

However, you filed an extension of time to provide beneficial use in 2015 and were given until August 01, 2020 to perfect this permit. Another option would be to withdraw your proof of beneficial use and put the water to domestic use in the two (2) years remaining on your extension.

Please let me know within 30 days how you would like to proceed with this permit. If you have any questions, please contact me at the number below. Thank you.
