ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.

WATER SUPPLY BANK LEASE CONTRACT No. 838

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
    a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
    b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water right 37-2227 & 37-19832 shall be administered as being from a separate source pursuant to Basin 37 Part 2 General Provision No. 1A. If the holder of this right seeks to change the right pursuant to Idaho Code Sec. 42-222 or successor statute, nothing in this General Provision shall preclude any other person or entity from demonstrating that such a change in use would cause injury to its water right or from receiving relief provided by law in the event of injury.
13. The rights listed below are limited to the irrigation of a combined total of 40.0 acres in a single irrigation season. Combined Right Nos.: 37-2227 & 37-8609.
14. The rights listed below are limited to the irrigation of a combined total of 45.4 acres in a single irrigation season. Combined Right Nos.: 37-2227, 37-8609 & 37-19832.
15. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under water right 37-8609 and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
16. Water right 37-8609 is limited to the irrigation of 40.0 acres within the place of use described above in a single irrigation season. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual diversion volume of 140.0 af for the 40 acres upon which this right may be used. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.
17. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37B.

Subject: Smokey Dome Rights on 3 Mile Creek Fairfield

Greg,
Sorry took so long. For the record WD 37B does not require a measuring device on 3-Mile Creek until irrigation season of 2018. Here is the irrigation records that were officially recorded with IDWR on my WaterMaster report for 3 mile creek.

2014 152 days
2015 80 day
2016 81 days

Again, no measurement on that creek until next year. Just been counting days.

Yell if you need anything else.

Thanks
