Re: John Lezamiz Family LTD Partnership

Dear Mr. Cefalo:

It is proposed to transfer 5.0 acres under water right 34-14622 to a new point of diversion and a new place of use. The 5.0 acres will be transferred into a permissible place of use that was recently created with a previous transfer.

John Lezamiz Family LTD Partnership has entered into an agreement with current water right owner that will finalize the purchase of 34-14622 after the transfer is approved.

The irrigation of the 5.0 acres has not been allowed to occur because the current owner of the authorized point of diversion will not allow anyone else to divert irrigation water from the well. Because of this fact, water right 34-14622 should be allowed to be transferred and beneficially used for irrigation purposes.

IDWR is welcome to contact the current well owner to discuss the lack of any water use agreement.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., Engineer

Cc: John Lezamiz
