I am requesting this petition for reconsideration of the above referenced license.

Specifically, I would like to see a recheck of the area of beneficial use. The following areas are irrigated and not included in your calculations:

1. In the SWNW section there is a developed lot with about 2.5 irrigated acres
2. In the SWNW section the right of way along Meyer Road is irrigated
3. In the SWNE section the area on the East side of the home next to the Rail Road ROW is irrigated.

Thank you,
