Re: Application for Transfer of Rights 33-2138, 33-7040, and 33-7172

Dear IDWR,

Enclosed please find an Application for Transfer filed on behalf of Pancheri Brothers Inc. along with a check for the filing fees of \$580. As shown on the Application for Transfer, we are listed as the Applicant's representative, and we request any and all correspondence relating to this transfer be directed to this office.

The Transfer seeks to move a portion of the listed water rights from the existing location to be included at the place of use of water rights 33-2115 and 33-14852. Rights 33-2115 and 33-14852 are currently described as a permissible place of use (PPU). A recent transfer identified the 286.6 irrigated acres in the PPU. The majority of the acres in the PPU are stacked with surface water from Blaine County Canal Company, except for the NW1/4 Section 19 T6N R30E. With the addition of acres to be added through this Application, the applicant also requests to reconfigure the irrigated acres in the PPU, allowing the transferred water rights to be located on acreage that is not overlapped by surface water in the NW1/4 Section 19 T6N R30E. Shapefiles can be provided upon request.

We appreciate your kind attention to this matter, and are happy to answer any questions you may have.

Thank you,

A handwritten signature in blue ink that reads "Kristin Moore".
