1. Other water rights with the same place of use: ☒ Yes ☐ No

Water Right No.	Source	Purpose of Use	Basis
95-17068	Ground Water	Domestic, Irrigation, Stock	Permit

Comments: The permit holders filed for two permits at the same time, for the same uses. This permit, 95-17069, authorizes the diversion of surface water, while 95-17068 authorizes the diversion of ground water.

There are other water rights in the same 40 acre tract, but their places of use are associated with other tax parcels, and do not overlap with 95-17069.

2. Other water rights with the same point of diversion: ☐ Yes ☒ No

Water Right No.	Source	Purpose of Use	Basis

Comments: 95-17068 does not have the same point of diversion because it is a permit to divert from a well (D0061903). The remaining points of diversion within the same 40 acre tract are associated with other tax parcels.

E. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method: Allowed rates according to Administrative Memoranda

According to Administrative Memorandum – Application Processing #22, we can allow up to 0.04 cfs for domestic use. Administrative Memorandum – Application Processing #3 allows up to 0.02 cfs for 50 head of stock or less.

Domestic use = 0.04 cfs
 Stockwater = 0.02 cfs
 Permit allowed = 0.06 cfs

License recommend for 0.06 cfs.

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation: None

According to Administrative Memorandum – Application Processing #22 we can allow up to 1.2 AFA per household for when irrigation is included with in-home domestic use.

2. Volume Calculations for Other Uses: Stockwater – per Administrative Memorandum – Application Processing #3

$$V = (\text{Number of stock}) \times 12 \text{ gpd/hd} \times 365 \text{ days} / (325851 \text{ gal} / \text{AFA})$$

$$= 50 \times 12 \times 365 / 325851 = 0.67 \text{ AFA}$$

3. Total Volume:

$$V = \text{Domestic use} + \text{Stockwater} = 1.2 \text{ AFA} + 0.67 \text{ AFA} = 1.9 \text{ AFA}$$

PURPOSE OF USEIrrigation ☒ Yes ☐ No# Stock 50, mixedDomestic # of Homes 1Other: Irrigation of 1/2 acre is part of the domestic use.Change in Purpose of Use? ☐ Yes ☒ NoMethod of Determination: Satellite imagery and tax parcel data indicate that the home was constructed in 2014.**H. NARRATIVE/REMARKS/COMMENTS**

This permit is for domestic use, including 1/2 acre of irrigation, and for stockwater for 50 head of mixed stock, including chickens. The owners of this permit also have a permit to divert groundwater (95-17068) for the same uses. The home and the well for ground water were constructed in 2014, according to county tax parcel data and the well driller's report.

Similar letters of protest were filed against 95-17069 and 95-17068 by Kootenai Environmental Alliance. The protest against this permit was received after the protest period and was not recognized.

For the licensing of this permit, the places of use for domestic and stockwater will be the entire tax parcel owned by the permit holders.

The application for permit states that a small gas or electric powered pump (less than 5 hp) would be installed. No additional information was given with the Statement of Completion for Submitting the Proof of Beneficial Use. We cannot determine the capacity of the pump in use.

Conditions #3 (26A regarding the commencement of construction) and #7 (the number of stock) are removed. All other conditions will be carried forward to licensing.

Have conditions of permit approval been met? ☒ Yes ☐ No
