Attorneys for Applicant Thorpe Family Trust

RECEIVED
JUL 31 2018
WATER RESOURCES
WESTERN REGION

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF APPLICATION FOR
PERMIT NO. 63-34335 IN THE NAME OF
THORPE FAMILY TRUST

**STIPULATION FOR WITHDRAWAL
OF PROTEST AND ISSUANCE OF
PERMIT**

WHEREAS, Thorpe Family Trust ("Thorpe") filed an Application for Permit No. 63-34335 dated January 27, 2017 (the "Application"), to appropriate 1.3 cfs for irrigation purposes from March 1 through November 15, and 9.75 cfs for wildlife and recreation purposes and diversions to storage from September 1 through February 28, and 1,816.8 acre-feet for wildlife and recreation storage purposes from September 1 to February 28 with the source of water from Dixie Slough.

WHEREAS, on May 17, 2017, Riverside Irrigation District Ltd. ("Riverside") timely filed a Notice of Protest to the approval of the Application.

WHEREAS, protestant Riverside and Thorpe wish to resolve the issues raised in the Notice of Protest filed by Riverside.

NOW, THEREFORE, Thorpe and Riverside, by and through its attorneys of record, stipulate and agree that protestant Riverside will withdraw its Notice of Protest to the Application on the following conditions:

STIPULATION FOR WITHDRAWAL OF PROTEST AND ISSUANCE OF PERMIT

ORIGINAL

1. That the Idaho Department of Water Resources ("Department") include the following condition in any permit issued under the Application:

The source of this right is wastewater. The wasting of water may be discontinued at any time. This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting, or to recapture.

2. Riverside and Thorpe recognize that the Dixie Slough has been used in the past by Riverside as a wasteway for water in the event of canal break or to prevent overtopping the canal in the event of flows into the canal from other sources, particularly including the West End Drain which is located upstream of the Dixie Slough on the Riverside Canal, and the parties recognize that Riverside maintains a headgate on the Riverside Canal to the Dixie Slough allowing Riverside to release water from the Riverside Canal into Dixie Slough.

3. Based upon Riverside's historic uses, Thorpe agrees to protect and hold harmless Riverside from any and all demands, claims, and liability asserted by Thorpe associated with Riverside's use of the Dixie Slough as a wasteway consistent with historic practices. Thorpe further releases Riverside from any and all claims, demands, and liability that Thorpe may hereafter have, arising from or associated with effects to the operations proposed by Thorpe under Water Right No. 63-34335, and any impact to structures installed in or adjacent to the Dixie Slough by Thorpe to facilitate its operations under Water Right No. 63-34335. This release shall be binding on Thorpe and its successors and assigns.

4. The parties request the Department, pursuant to IDAPA 37.01.01.612, for an order approving the Application and including condition set forth in paragraph 1 above.

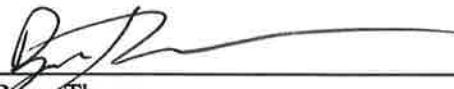

5. Riverside's protest to the Application shall be deemed withdrawn upon the issuance of a final order approving the Application and including the condition set forth in

paragraph 1 above.

6. Each party shall bear its own costs, expenses, and attorney fees in connection with the above-captioned matter.
