PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 73-12219

Dear Permit Holder(s):

The Department acknowledges receipt of the Proof of Beneficial Use ("proof") form and license examination fee submitted for the above referenced permit.

During review of your proof form and the permit listed above, I noticed you stated a number of livestock greater than the number allowed for stock watering purposes under this permit. You stated on your proof form you are providing stockwater for 1,000 pair of stock however, this permit only authorizes stockwater for 10 head of mixed stock. This permit is limited to the authorized amount. I have enclosed a copy of this permit for your reference.

You may apply for another permit to cover additional water use if needed. Application for Permit forms are available from any department office or at the department's website at www.idwr.idaho.gov

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the uses being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office or at the department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Eastern Region Office of the Department located in Idaho Falls at (208) 525-7161.

Sincerely,

Darla Block

CONVERSATION MEMORANDUM

TO: Permit File Nos. 73-12219 & 73-12220

FROM: Darla Block

DATE: August 31, 2018

SUBJECT: Phone Conversation Regarding Lockable Device Requirements on both Permits & License Examination Fee Deficiency on 73-12220.

This afternoon I called and spoke with Troy Olson of Circle Pi LLC, and explained that the license examination fee paid with Proof for 73-12220 was deficient \$125.00. Troy told me that his wife was currently in Salmon, and she could run in and drop off a check today.

During our conversation I mentioned that both permits have conditions that require the installation of a lockable device. Troy informed me that there are lockable devices on the wells. He marked the proof forms for both permits that the devices were not installed because he was under a different impression of what was meant by "Lockable Device".
