Nick,

After the last one, you might start hating me about any time now. While trying to get another old transfer data entered into the new system, it was noted that the rights involved with the transfer have been decreed in the SRBA since the transfer was filed. All of the recommendations listed below are in the name of the Big Wood Canal Company and were all decreed in the SRBA on 11/29/2012.

Could you migrate the following recommendations to the water rights database...

37-13113 The recommendation indicates that it is a combination of old water right records 37-59, 37-121, 37-133B, 37-294, 37-641, 37-642, 37-672 and 37-675B. It appears that the referenced 37-59 record might actually be WR record 37-59F. The original SRBA claim for 37-13113 indicates that "131.7 cfs" of 37-59 was claimed. Summing the 131.7 cfs and the other diversion rates from the other water right records indicates a total diversion rate of 150.00 cfs, so it appears that this recommendation supersedes these records in their entirety.

Thanks,
Corey
