The application states the purpose for this water permit is for irrigation of property, which is 0.5 acres. Assume fish screen is installed with submission of proof.

An email was sent regarding water right 96-8763 in the name of Patrick Henker asking if the right was for the same property. Micheal Henker called and informed me his father, Patrick, owned property about 10 lots away but has since sold the property. Water right 96-8763 is not for property owned by Micheal Henker.

The Department of Water Resources is in the process of an in-house review of permit 96-9592. During this review, the Department came across another water right that appears to be appurtenant to your property. I have attached a water right report of 96-8763 in the name of Patrick Henker. The beneficial uses for water right 96-8763 are domestic and irrigation. The documents for water right 96-8763 include maps that outline your property as the place of use.

The Department does not allow two domestic rights for the same place of use with the same point of diversion unless there are multiple homes on the property. If you have information that water right 96-8763 is not appurtenant to your property, please provide it to the Department. If not, I have attached a Relinquishment of Permit form for your convenience. You may relinquish water right 96-9592.

Please provide the additional information or relinquishment form within 14 days. If the Department does not hear from you within 14 days, a Notice of Intent to Void Permit 96-9592 will be sent out. If you have any questions, please contact me. Thank you.
