If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: August 6, 2018
To: Transfer 82529 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application filed to change a 39 acre portion of the place of use of overlapping water rights 37-436C, 37-884, and 37-2682 owned by William T (Rocky) and Theresa L Sherbine. The place of use of these water rights overlaps with the service area of Baseline Canal Company water rights 37-891B and 37-1206, Baseline Pump Association #1 right 37-4109, and Baseline Pump Association # 2 right 37-2556A. Because of this overlap, rights 37-891B, 37-1206, 37-4109, and 37-2556A have also been included in the transfer to modify their place of use to insure that potential unstacking/enlargement does not occur. Note that the Baseline Pump Association #1 and Baseline Pump Association # 2 entities are subsets of the Baseline Canal Company. Authorized representatives have signed the application on behalf of all the applicants (Sherbines & Baseline entities). Because the application only proposes modifying the place of use of several overlapping water rights (no anticipated hydraulic impacts), it will be processed without public notice advertising. The rights involved with the application are located within Water District # 37 so water master comments will be solicited.

- **Authority to File:**
The current owners of the rights involved with the transfer are all listed as transfer applicants. IDSOS information indicates that appropriate people have signed on behalf of the Baseline entities.
- **Water Right Validity:**
The rights involved with the transfer were decreed in the SRBA in 2009 and 2010. Recent aerial photography indicates that the lands where the rights are being transferred from appear to be irrigated. Possible forfeiture of the rights does not appear to be an issue.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

This transfer only proposes changing the place of use of several overlapping water rights. There is no hydraulic impacts anticipated. Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

MEMORANDUM

TO: Transfer # 82529 File

FROM: Corey Skinner

DATE: August 6, 2018

SUBJECT: Filing Fee

The filing fee, \$660.00, for this transfer is based on the total amount of water being transferred. The transfer proposes moving a 39 acre portion of water rights 37-436C, 37-884, and 37-2682 which allow for the total diversion of 7.64 cfs for the irrigation of 198 acres. A 39 acre portion of these rights equates to approximately 1.51 cfs ($39/198 \times 7.64$ cfs). The transfer proposes moving a 40 acre portion of water rights 37-891B, 37-1206, 37-4109, and 37-2556A which allow for the total diversion of 48.76 cfs for the irrigation of 2859.2 acres. A 40 acre portion of these rights equates to approximately 0.68 cfs ($40/2859.2 \times 48.76$ cfs). The summation of 1.51 cfs and 0.68 cfs is 2.19 cfs. The transfer fee schedule for a transfer involving 2.01 – 3.00 cfs indicates that the filing fee is \$660.00.
