MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFERDEPT OF WATER RESOURCES
SOUTHERN REGION

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) PATRICK D. FUREY and TAMMY R. FUREYCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes ☐ N/A ☐ * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☒ ☐ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).**
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☐ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☒ ☐ #10 Other. Please describe: Narrative explanation of problem sought to be corrected by this Application

The Place of Use for WR Nos. 71-14, 71-15, 71-17 and 71-18 has since 1960 or even earlier been on at least 9.8 acres of land now owned by Applicants. Due to a mapping error, 3.5 acres of this POU shows in the Dept's records as "shifted" N and E onto National Forest land which has never been irrigated by anyone, ever. Applicants want to correct this to locate the entire 9.8A POU onto their land.

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

~~Ditch with diversion from Meadow Cr flood irrigates the 9.8 acres Applicants own. A measuring weir already exists at the ditch head. Diversion is by simple plastic dam across Meadow Cr. Future lockable controlling works would require a concrete headgate with locking gate.~~

- b. Who owns the property at the point(s) of diversion? Sawtooth Natl Recreation Area (United States)
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

~~Historical custom and useage since 1910. There may be a Special Use Permit, as well, unsure.~~

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete [Attachment WSB](#).

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

~~That's the anomaly: the 3.5 acres of POU that is the subject of this application has never been irrigated. All 9.8 acres of the true POU is land owned by Applicants. The Transfer sought won't affect either the 3.5 acres of SNRA land or the 9.8 acres of Applicants' land at all; it will simply correct the Dept's records to show the true~~ +

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

~~There is no system at the "existing" 3.5A POU, please see above. The entirety of WR 71-14, -15, -17 and -18 have at all times been used on the 9.8 (or more) acres of Applicants' land.~~

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

NARRATIVE EXPLANATION OF PROBLEM SOUGHT TO BE CORRECTED
BY TRANSFER

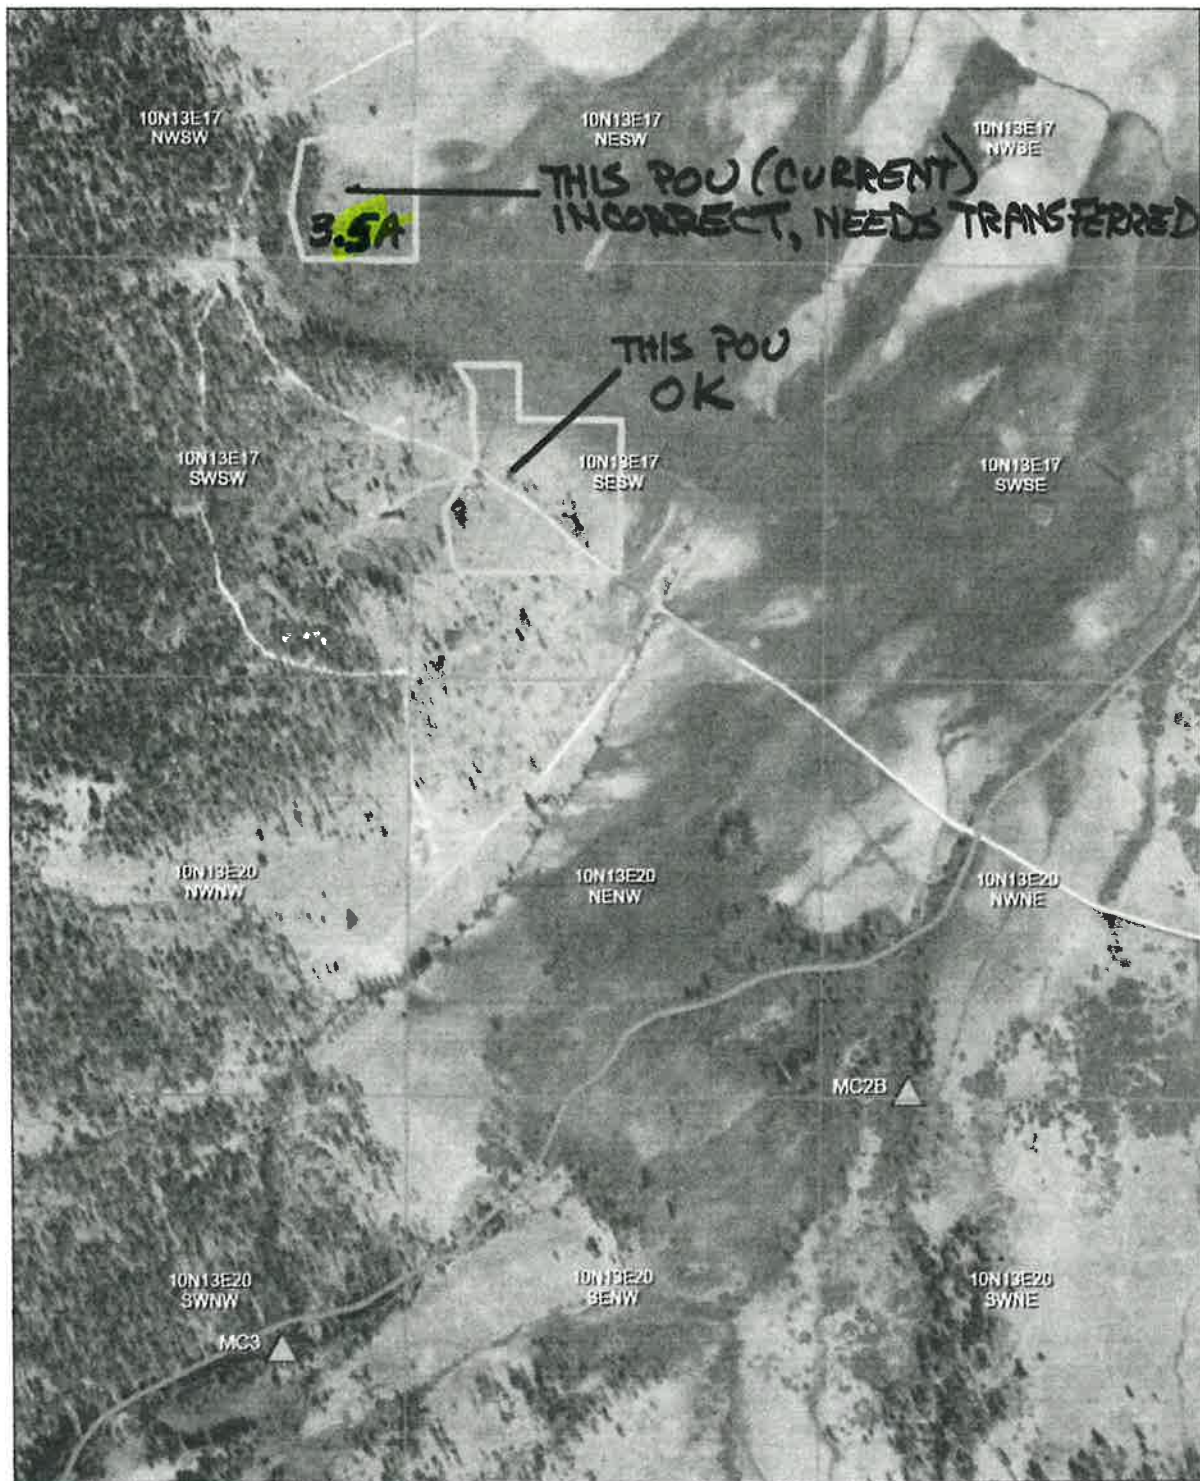

Water Right Nos. 71-14, 71-15, 71-17 and 71-18 have at all times since 1960 or before been used on land now owned by Applicants and comprising either 9.8 acres or 10.7 acres or 12.2 acres, depending which records are reviewed. Because the most recent Part 2A Proof Reports for each of the respective Water Rights gives the acreage as 9.8, Applicants have used that figure throughout the application. (They do not waive any greater POU acreage to which they may be entitled, if any, however.)

For some reason unknown to Applicants, when the POU for these rights was mapped in the Department, most was correctly shown on the land now owned by Applicants, but another 3.5 acres of POU were incorrectly peeled off and mapped a distance North and slightly West, onto land owned not by Applicants or any of their predecessors in interest, but by the United States as part of the Sawtooth National Forest. This 3.5 acres has never been irrigated at all, by anyone, ever. The Forest Service has no interest whatsoever in these water rights.

Applicants want to correct the erroneously-mapped 3.5 acres of POU currently shown as being on National Forest land and transfer the same South and slightly East, onto Applicants' land and contiguous to their correctly-mapped POU for a total of 9.8 acres of POU for Water Rights 71-14, 71-15, 71-17 and 71-18.

The Part 2B calculations were arrived at by dividing the POU acreage to be transferred (3.5) by the total POU acreage (9.8) to arrive at a percentage (35.714%). The total cfs of each of the four water rights was then multiplied by 35.714% to determine the portion of the water right (in cfs) sought to be transferred to the correct POU.

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) PATRICK D. FUREY and TAMMY R. FUREYCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☒ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below). Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☐ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☒ Other Show true POU
2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.

The Place of Use for WR Nos. 71-14, 71-15, 71-17 and 71-18 has since 1960 or even earlier been on at least 9.8 acres of land now owned by Applicants. Due to a mapping error, 3.4 acres of this POU shows in the Dept's records as "shifted" N and E onto National Forest land which has never been irrigated by anyone, ever. Applicants want to correct this anomaly to show all 9.8 acres of POU for these water rights on their land.

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Ditch with diversion from Meadow Cr flood irrigates the 9.8 acres Applicants own. A measuring weir already exists at the ditch head. Diversion is by simple plastic dam across Meadow Cr. Future lockable controlling works would require a concrete headgate with locking gate.

- b. Who owns the property at the point(s) of diversion? Sawtooth Natl Recreation Area (United States)

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Historical custom and useage since 1910. There may be a Special Use Permit, as well; unsure.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

That's the anomaly: the 3.4 acres of POU that is the subject of this application has never been irrigated. All 9.8 acres of the true POU is land owned by Applicants. The Transfer sought won't affect either the 3.4 acres of SNRA land or the 9.8 acres of Applicants' land at all, it will simply correct the Dept's records to show the true POU.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

There is no system at the "existing" 3.4A POU, please see above. The entirety of WR 71-14, -15, -17 and -18 have at all times been used on the 9.8 (or more) acres of Applicants' land.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

NARRATIVE EXPLANATION OF PROBLEM SOUGHT TO BE CORRECTED
BY TRANSFER

Water Right Nos. 71-14, 71-15, 71-17 and 71-18 have at all times since 1960 or before been used on land now owned by Applicants and comprising either 9.8 acres or 10.7 acres or 12.2 acres, depending which records are reviewed. Because the most recent Part 2A Proof Reports for each of the respective Water Rights gives the acreage as 9.8, Applicants have used that figure throughout the application. (They do not waive any greater POU acreage to which they may be entitled, if any, however.)

For some reason unknown to Applicants, when the POU for these rights was mapped in the Department, most was correctly shown on the land now owned by Applicants, but another 3.4 acres of POU were incorrectly peeled off and mapped a distance North and slightly West, onto land owned not by Applicants or any of their predecessors in interest, but by the United States as part of the Sawtooth National Forest. This 3.4 acres has never been irrigated at all, by anyone, ever. The Forest Service has no interest whatsoever in these water rights.

Applicants want to correct the erroneously-mapped 3.4 acres of POU currently shown as on National Forest land and transfer the same South and slightly East, onto Applicants' land and contiguous to their correctly-mapped POU for a total of 9.8 acres of POU for Water Rights 71-14, 71-15, 71-17 and 71-18.

The Part 2B calculations were arrived at by dividing the POU acreage to be transferred (3.4) by the total POU acreage (9.8) to arrive at a percentage (34.693%). The total cfs of each of the four water rights was then multiplied by 34.693 to determine the portion of the water right (in cfs) sought to be transferred to the correct POU.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 736-3033.

Sincerely,

A handwritten signature in black ink, appearing to read "Corey Skinner". The signature is fluid and cursive, with the first name "Corey" written in a larger, more prominent script than the last name "Skinner".

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: August 27, 2018
To: Transfer 82426
From: Kent Aasa
Re: Review & Evaluation of Sufficiency of Information

Review & Evaluation of Sufficiency of Information
8/27/2018

The transfer proposes to update the place of use (POU) of water rights 71-14, 71-15, 71-17, and 71-18 for the irrigation of 3.5 acres. The POU was incorrectly identified on land owned by the United States Forest Service and will be correctly identified on land owned by the applicant. This change reflects the actual historical irrigation practices that have taken place. An email from the Forest Service dated June 18, 2018 supports the change proposed with this transfer. The POU is located approximately 2.0 miles west and 1.8 miles south of the Highway 75/21 intersection in Stanley. Because it is simply a POU correction as defined by 42-222 advertising will not be necessary. Proposed transfer is in Water District 71 so water master comments will be solicited.

Authority to File: The Department's database indicates that the water rights involved are owned by the applicants; Patrick and Tammy Furey. The application was signed the applicants.

Water Right Validity: The water rights were decreed in the SRBA on 03/16/1999. Recent aerial photography supports uses described on the water rights. There does not appear to be a validity issue.

Injury to Other Water Rights: None anticipated or foreseen. The transfer is simply updating the POU to reflect the actual historical irrigation practices on the applicants land.

Enlargement of Use: None anticipated

Local Public interest: No issues anticipated. The application will not be advertised.

Beneficial Use/Conservation of Water Resources: Proposed use is recognized as a beneficial use of water.

Effect on Economy the Local Area: None anticipated.

Effect on Agricultural Base of the Local Area: None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required

8/27/2018

The transfer proposed with water rights 71-14, 71-15, 71-17, and 71-18 is simply updating the place of use (POU) of 3.5 acres of irrigation. The POU was incorrectly identified on land owned by the United States Forest Service and will be correctly identified on land owned by the applicant. This change reflects the actual historical irrigation practices that have taken place. The POU is located approximately 2.0 miles west and 1.8 miles south of the Highway 75/21 intersection in Stanley.

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Fee Memo
8/20/2018

Filing fee of \$200.00 for transfer application 82426 is based on the amount of water (0.142 cfs) proposed to be transferred or changed. The water rights associated with the transfer are limited to irrigation of a 9.8 acre POU. The filing fee is based on the current transfer fee schedule for 0.142 cfs. Receipt No.S036777 reflects the fee of \$200.00 paid on 06/04/2018.

I have no objection to the approval of this transfer. The transfer is necessary in order for the acres to be properly described on private land so the right may be placed in the Water Supply Bank.

Dear Cindy:

A copy of the above referenced application is enclosed. Please review the application, and provide any necessary comments within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the water master, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline

Kent,

Thank you so much for catching this. I misread the call of the form to reference the POU acreage we're moving, rather than the total, correct POU acreage. Thank you again, I absolutely agree!

Pat,

The page 3 of the amended application (82426) indicates a total of 3.5 acres for irrigation after the transfer is completed which would diminish your water rights. I have attached an amended page 3 that indicates a total of 9.8 acres for irrigation. Please review these and let me know if you agree.

Re: Pat Furey CORRECTED application for POU transfer

Dear Kent:

Enclosed is the CORRECTED application to transfer the POU for my water rights in Stanley off the Forest Service ground and down onto my compound, where it should be. Per our conversation the other day, I have changed it to reflect that the true acreage to be transferred is 3.5 acres, rather than 3.4 as I had it in the original application. I don't know where I got the wrong number, but I apologize for any inconvenience it may have caused. Please don't hesitate to call if I have any mistakes in the enclosed, too.

Thanks again.

Very truly yours,

Patrick D. Furey

Transfer of portion of POU

Dear Kent:

Enclosed is my application to move the mis-mapped POU for the referenced water rights down onto my own property. I hope I completed the application correctly, but if I fouled it up anywhere, please don't hesitate to give me a call.

Also, I recall Amy Cassell in your Salmon office indicated awhile back that she had spoken with a representative of the SNRA who said he or she would give Amy whatever consent or acquiescence you might want. I'll shoot her an email and ask her to get that to you.

Thanks again for all your help with this.

Very truly yours,

Patrick D. Furey
