3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.

Narrative: The Department received this application to lease the remaining portion, 95 acres, of this right to the Bank on July 27, 2018. The other 173 acres has been leased to the Bank in 2016 through 2020. This 95 acre lease will end in 2020 to get on the same schedule as the other lease. Irrigation did take place in 2016 on these acres. Aerial photography suggests that some irrigation had taken place this year. A letter from the applicant and water master stating the ditch has collapsed and no water has been delivered cleared that up. This right is currently within WD 73 & 170.

RE: APPLICATION TO LEASE WATER RIGHT NO(S) 73-12037 TO THE WATER SUPPLY BANK

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of the application to lease the above referenced water right to the Idaho Water Resource Board's Water Supply Bank (Bank). During the Departments review of your application, it appears the portion of water right 73-12037 you are offering to the Bank has been irrigated during the 2018 season.

Because it appears the right has been put to beneficial use, the Department cannot accept this portion of water right 73-12037 into the Bank, unless you can provide evidence irrigation has not occurred. You can withdraw your application and request a refund or the Department can hold your application for the 2019-2020 season. If you choose to place the water right in the Bank for the 2019-2020 season, no beneficial use may occur during 2019-2020.

Please provide any additional information, request to have the Department hold your application or request withdrawal of your application within 30 days of the date of this letter or the application will be returned unprocessed and your application fee will be refunded.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

for Water Supply Bank
