PROPOSED AMENDMENT OF WATER PERMIT

Dennis and Debbie Turner of 2558 Williams Lane, Homedale, Idaho 83628 filed Application No. 82641 on August 6 2018 to amend a water permit no. 63-33940 with a 2014 priority from ground water and wastewater totaling 5.03 cfs for stockwater and supplementary irrigation use located approximately 4.5 miles northwest of Wilder, Idaho. The applicant proposes to amend the permit to change the point of diversion from a location near the Snake River to a point along the riverside canal roughly 0.3 miles north of the original location.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right(s) or proposed amendment(s), please see www.idwr.idaho.gov. Protests may be submitted based on the criteria of Idaho Code §§ 42-203A and 42-211. Any protest against the approval of the application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise ID 83705 together with a protest fee of \$25.00 for each application on or before 9/24/2018. The protestant must also send a copy of the protest to the applicant.

RE: Applications for Permit 65-23768, 2-10558, 2-10565 & 63-34403

Dear Mr. Bosworth:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendation(s) from your agency regarding the above referenced water right application(s). Copy(s) of the application(s) are enclosed with this email for your reference. Please review the application(s), complete the enclosed recommendation form, and submit your reply, if any, to this office by the protest deadline of **September 24, 2018**.

If your agency desires to formally protest approval of this application, you may do so by filing a written protest along with a \$25.00 filing fee for each protested application by the protest deadline.

IDWR will assume your agency does not object to this application if a timely response is not received. Please contact me if you have any questions regarding the application. Thank you for your help.

Sincerely,

Rachel Neely

Rachel,
Attached is the signed application.
One thing, for 2b, the representative is also manager and owner of HGOAL LLC. Do we still need a POA?

Thanks,
Sunny

Subject: Re: 2-10558 Application for Permit

Rachel,

It was very nice to talk to you on July 19th regarding water right application. After talking to our partners, I realized that I made mistake. We apply for water right for entire 23.49 acres of our property. No additional area other than our property will be included in water right application.

Here is the answers to 3 of your questions, I will provide answer to item 2 later on.

1. the correct contact phone number is 208-297-9055
2. The type and size of pump will be provided in later email.
3. We own the whole 23.49 acres of land in the application. The pump is owned by David Butler. He owns the property next to ours and agree to use his pump. Actually the farmer who rents our property is using it right now. His contact information is djb21069@aol.com and his phone number is 928-580-5161.
4. Please see attached diagram for our property in application. I highlight the property boarder in black which is our property borader.

Let me know if you have more questions. Will provide the type and size of pump in later email.

Thanks,
Sunny

Firstly, thank you for your clarification.

Secondly, the application for permit submitted to IDWR is not complete and amendments are needed. Please address the following items:

1. The contact number, 208-296-9055, listed on the application is incorrect. Please provide a correct phone number.
2. Item 7 on the application is incomplete. Describe type and size of devices used to divert water from the source.
3. Item 11.a on the application is incomplete. Who owns the property at the point of diversion? _
 - a. If you do not own the property item 11.c on the application is incomplete. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing.
4. Please clearly identifying the proposed point of diversion and the place of use on the attached Blank Map.

Please respond to this email clarifying the above items and with a new map. Once received, I will draft a new application for HGOAL LLC to sign.

Dear Rachel Sommer,

Thank you for your email and attachment.

The water right application submitted back in Feb was for total 24 acres which is 10.3 additional acres. It also requested 0.02 CFS vs. 0.007.

HGOAL LLC,

The purpose of this email is to request additional information related to Application for Permit 2-10558 submitted on February 12, 2018 to the Idaho Department of Water Resources (IDWR). There are a few aspects of your application that need to be clarified before it can be processed.

One item that needs to be discussed is an existing irrigation water right currently located on the property proposed in you application; a water right proof report and map are attached for your convenience. The existing water right is for 13.7 acres. Because there is existing rights on the property, how many additional acres are you proposing to irrigate through the new application submitted?

Feel free to call me if you have questions, 208-334-2190.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on December 26, 2017. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 4-** please include the 40 acre-tract description of where your point of diversion is located. You have not included the quarter quarter portion.
- **Section 5-** the diversion rate must be in cubic feet per second. This should be a single number rather than a range. For 60 acres, you would be allowed to apply for .02 cfs per acre for a total diversion rate of 1.2 cfs. **For the amount of acres to be irrigated on your application you may want to increase the cfs to 0.48 which would increase the fee \$150.** It should also be included in section 6 for total quantity to be appropriated.
- **Section 14-** The Map was not provided correctly. The map must clearly identify the proposed point of diversion and place of use. You must include an 8½" x 11" map that clearly identifies the proposed point of diversion, place of use, section #, township, and range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred or you may use the mapping tool found on our website at <http://maps.idwr.idaho.gov/map/>. To use the tool click on the "Change layers" button at the top of the screen, select the background drop down menu and add the 2011 NAIP background. Then click on the "Locate" button to find the location of the proposed project.
- Please provide some documentation as to why **Jenny Xia** is the point of contact as she is not listed on your list of officers or on the Idaho Secretary of State website.
-

The original incomplete application is enclosed. Please make the necessary amendments to the original form, **initial and date next to the changes**, and re-submit together with payment of the fee within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,
