The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of the A&B Irrigation District and that interest is derived from law and is not based exclusively on the contract between the Bureau of Reclamation and the A&B Irrigation District.
7. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. ## TRANSFER SYNOPSIS

**Date:** August 9, 2018  
**To:** A&B Irrigation District Transfer #82609 file  
**From:** Jim Bitzenburg  
**Re:** Summary of transfer

---

Application for transfer proposes to add a point of diversion to a portion of eight irrigation water rights which are currently diverted via pump from the Snake River at a point located approximately 7.9 miles west and 0.4 mile south of the intersection of Main Street and Overland Avenue in Burley. The additional POD will be a pumping station on the Snake River located approximately 5.6 miles west and 0.6 mile north of Burley which is the current POD for a single Snake River right. The transfer will also add the POD of the eight rights to the single right, and, as a result, all nine rights will possess two common PODs. The total amount being transferred is 129.57 cfs.

Because the transfer involves changing the POD for a surface water right, and because the amount of at least one of the rights being transferred exceeds 10 cfs, the transfer will be advertised statewide. Comments will be solicited from the Watermasters of WD-01 and WD-130.

The rights involved in the transfer are: 1-14 (267.0 cfs), 1-2060 (240.0 cfs), 1-10225 (22.41 cfs), 1-10237 (0.19 cfs), 1-10238 (0.62 cfs), 1-10239 (0.24 cfs), 1-10240 (1.18 cfs), 1-10241 (1.09 cfs), and 1-10633 (the 'single' right, 29.57 cfs). Right 1-2060 is a Bureau of Reclamation right appurtenant to the A & B Irrigation District place of use, and a letter of consent from the Bureau concerning the transfer has been supplied by the B.O.R.

The applicant has requested that a combined limit of 100.00 cfs be placed upon the flow rate of the group of eight rights at the additional POD located in the NENW, Section 20, T10S, R22E.

## FEE MEMORANDUM

**Date:** August 9, 2018  
**To:** A & B Irrigation District Transfer #82609 File  
**From:** Jim Bitzenburg  
**Re:** Receipting/disposition of fees paid

---

This transfer was filed on August 8, 2018 and is intended to add a point of diversion (POD) currently listed on one right to eight rights and to add a point of diversion currently listed on the eight rights to the single right so that all nine rights may be diverted from either point of diversion. The total diversion rate from the eight rights at the POD which is being added to them will be limited to 100 cfs and the diversion rate from the single right is 29.57 cfs, so the transfer rate is a total of the two, 129.57 cfs. This equates to a fee of \$5820.00 from the transfer fee schedule which was paid upon filing by A & B Irrigation District with check 8176, receipt number S036899.

**Re: A&B Irrigation District – Application for Transfer POD (1-14 et al.)**

Dear Jim:

Please find enclosed the following on behalf of our client the A&B Irrigation District:

- 1) Application for Transfer of Water Right – Point(s) of Diversion
- 2) Part 2A Water Rights
- 3) Maps (identifying points of diversion)
- 4) Check for Filing Fee (\$5,820)

By way of background, as you may be aware, A&B recently developed a second pumping plant on the Snake River to deliver surface water to landowners on the project. A&B filed a new application for permit (01-10633) to divert available natural flow at the new plant to irrigate certain lands. This permit was recently licensed by IDWR this summer.

After further review of the District's water rights it became apparent that the existing surface water rights (01-14 et al.) did not include the second pumping plant as an authorized point of diversion (POD). A&B is filing the current transfer to ensure all surface water rights held by or used by the District include both pumping plants as authorized PODs. This will help the District's operations and ensure accurate accounting records with Water District #1.

The District is using 129.57 cfs as the total amount of water to transfer which reflects: 1) a 100 cfs limitation for the water rights that do not currently list the new pumping plant as a POD (1-14 et al.); and 2) 29.57 cfs, the quantity licensed under 01-0633, for use at pumping plant #1 when needed. Stated another way, A&B expects the water rights to be limited to a combined diversion rate of 129.57 cfs at the new pumping plant #2 POD.

It is our understanding that Gail McGarry will be sending a letter or email regarding permission by the U.S. Bureau of Reclamation concerning water right 01-2060 held in Reclamation's name. Reclamation does not oppose this transfer application.
