IDWR / NORTH

82224
STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 83-11989

1. Name of applicant(s) Rex Summerfield and/or Terri Summerfield Phone (208) 435-4614
Name connector (check one): ☐ and ☐ or ☒ and/or
Mailing address 147 Wilson Rd City Weippe
State Idaho ZIP 83553 Email rexsummerfield@gmail.com
2. Name of representative, if any _____ Phone _____
Mailing address _____ City _____
State _____ ZIP _____ Email _____
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☐ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Unnamed Stream which is a tributary of Cranberry Creek
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
38N	02E	24			NE	SW	Clearwater	Unnamed Stream	
38N	02E	24			NE	SW	Clearwater	Unnamed Stream	
38N	02E	24			SE	SW	Clearwater	Unnamed Stream	

5. Water will be used for the following purposes:

Amount 17 for Stockwater From Storage purposes from 01-01 to 12-31 (both dates inclusive)
(cfs or acre-feet per year)

Amount 17.7 for Stockwater Storage purposes from 01-01 to 12-31 (both dates inclusive)
(cfs or acre-feet per year)

Amount 15 for Irrigation From Storage purposes from 03-15 to 11-15 (both dates inclusive)
(cfs or acre-feet per year)

Amount 15 for Irrigation Storage purposes from 01-01 to 12-31 (both dates inclusive)
(cfs or acre-feet per year)

6. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) 17.7 acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Will build three excavated ponds with the capacity of 1.5 AF combined volume. Each pond will have approximately 8 ft dam.
- b. Height of storage dam 8ft feet; active reservoir capacity 1.5 acre-feet; total reservoir capacity 1.5 acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- e. If well is already drilled, when? _____; drilling firm _____;
well was drilled for (well owner) _____; Drilling Permit No. _____

For Department Use

Received by _____ Date _____ Time _____ Preliminary check by _____
Fee \$ _____ Receipted by _____ Receipt No. _____ Date _____

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. _____
 - Stockwatering; list number and kind of livestock. 50 Head of mixed stock
 - Municipal; must complete and attach the Municipal Water Right Application Checklist.
 - Domestic; show number of households _____
 - Other; describe fully. Wildlife and Recreation uses will occur in the ponds. Recreation uses consist of swimming and fishing.
9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
38N	02E	24									1.0			4.0					5.0 ac
38N	02E	24									IS	IS		IS					
38N	02E	24									RS	RS		RS					

Total number of acres to be irrigated: 5.0 acres

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? N/A
11. a. Who owns the property at the point of diversion? Rex Summerfield and/or Terri Summerfield
 b. Who owns the land to be irrigated or place of use? Rex Summerfield and/or Terri Summerfield
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. 3 ponds will be excavated to collect surface water run off to be used for stock and irrigation purposes. No Dam height will exceed 8ft. Overflow from the ponds will be piped to ponds, stock tanks or irrigation at lower levels on the property. Multiple fills depending on precepitation available. The pond sites have been repeadly logged and soil is easily compacted. A tan clay soil type is visible at all three pond sites. Ponds may be lined if there is excessive sepage.
13. Time required for completion of works and application of water to proposed beneficial use is 4 years (minimum 1 year).
14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Total Storage Calculations

FILE NUMBER	POND A
REVIEWER	Shaun Maxey
DATE	6/28/2018

This spreadsheet has been designed by Idaho Department of Water Resources to estimate the total seepage, evaporation and fill capacity required for a pond.

User Input
Calculated value
Formula Explanations

Surface Area (AC.)	0.11	"Surface Area" is automatically carried over from the "Seepage Loss" sheet.
Average Pond Depth (FT.)	5	"Average Pond Depth" depicts the actual depth of the pond either measured or estimated. Note: If you know the maximum depth and not the average depth, the Field Examiner's Handbook suggests multiplying the maximum depth by 0.4 to get the average depth, or you can use any method that seems reasonable to attain average depth.
Pond Capacity (AF)	0.55	Pond Capacity is calculated by multiplying the Pond Surface Area by the Average Pond Depth. If you know the capacity, divide the capacity by surface area and enter the average pond depth in the space above. Note: If pond capacity is determined using a method shown on the "Pond Capacity" sheet, the user may need to modify the value of "Pond Capacity" (cell B9) manually. Note that if the value is modified manually, the formula will be altered for future use.
Multiple Fill Volume Above Initial Fill to Fulfill From Storage Needs- "Multiple Fills" (AF)	4.68	The "Multiple Fill Volume Above Initial Fill" is the acre-feet of water required to meet a <i>from storage</i> component if the <i>from storage</i> component exceeds a one time fill. This section should not include the amount of water needed to fill the pond initially or the amount of water needed to maintain the pond level due to evaporation or seepage. For example: If a pond has a capacity of 5 acre feet and 2.5 acre feet of seepage and evaporation, but the pond is used for irrigation that requires 10 acre feet of from storage for the irrigation use, then you would insert 5 acre feet into this location (10 acre feet needed - 5 acre feet from the initial fill = 5 acre feet of additional storage needed). Note: You must have a "From Storage" component exceeding the initial fill on the permit to include a volume in this space.
Estimated Seepage Loss (AF)	0.3	The "Estimated Seepage Loss" is automatically carried over from the "Seepage Loss" sheet.
Estimated Evaporation Loss (AF)	0.2	The "Estimated Evaporation Loss" is automatically carried over from the "Evaporation Loss" sheet.
Total Volume Required (AF)	5.7	The "Total Volume Required" is calculated by adding the Pond Capacity, Multiple Fills, Seepage Loss, and Evaporation Loss amounts to determine the total amount of storage required.

Sum of Total Volume required (AF) for Ponds A, B, and C does not include Stockwater From Storage (.7 AF)

Total Storage Calculations

FILE NUMBER	POND B
REVIEWER	Sharon Mayne
DATE	6/27/2018

This spreadsheet has been designed by Idaho Department of Water Resources to estimate the total seepage, evaporation and fill capacity required for a pond.

User Input
Calculated value
Formula Explanations

Surface Area (AC.)	0.07	"Surface Area" is automatically carried over from the "Seepage Loss" sheet.
Average Pond Depth (FT.)	5	"Average Pond Depth" depicts the actual depth of the pond either measured or estimated. Note: If you know the maximum depth and not the average depth, the Field Examiner's Handbook suggests multiplying the maximum depth by 0.4 to get the average depth, or you can use any method that seems reasonable to attain average depth.
Pond Capacity (AF)	0.35	Pond Capacity is calculated by multiplying the Pond Surface Area by the Average Pond Depth. If you know the capacity, divide the capacity by surface area and enter the average pond depth in the space above. Note: If pond capacity is determined using a method shown on the "Pond Capacity" sheet, the user may need to modify the value of "Pond Capacity" (cell B9) manually. Note that if the value is modified manually, the formula will be altered for future use.
Multiple Fill Volume Above Initial Fill to Fulfill From Storage Needs- "Multiple Fills" (AF)	4.93	The "Multiple Fill Volume Above Initial Fill" is the acre-feet of water required to meet a from storage component if the from storage component exceeds a one time fill. This section should not include the amount of water needed to fill the pond initially or the amount of water needed to maintain the pond level due to evaporation or seepage. For example: If a pond has a capacity of 5 acre feet and 2.5 acre feet of seepage and evaporation, but the pond is used for irrigation that requires 10 acre feet of from storage for the irrigation use, then you would insert 5 acre feet into this location (10 acre feet needed - 5 acre feet from the initial fill = 5 acre feet of additional storage needed). Note: You must have a "From Storage" component exceeding the initial fill on the permit to include a volume in this space.
Estimated Seepage Loss (AF)	0.2	The "Estimated Seepage Loss" is automatically carried over from the "Seepage Loss" sheet.
Estimated Evaporation Loss (AF)	0.1	The "Estimated Evaporation Loss" is automatically carried over from the "Evaporation Loss" sheet.
Total Volume Required (AF)	5.6	The "Total Volume Required" is calculated by adding the Pond Capacity, Multiple Fills, Seepage Loss, and Evaporation Loss amounts to determine the total amount of storage required.

Total Storage Calculations

FILE NUMBER	83-XXXX
REVIEWER	Shaun Maxey
DATE	3/6/2018

This spreadsheet has been designed by Idaho Department of Water Resources to estimate the total seepage, evaporation and fill capacity required for a pond.

User Input
Calculated value
Formula Explanations

Surface Area (AC.)	0.3	"Surface Area" is automatically carried over from the "Seepage Loss" sheet.
Average Pond Depth (FT.)	5	"Average Pond Depth" depicts the actual depth of the pond either measured or estimated. Note: If you know the maximum depth and not the average depth, the Field Examiner's Handbook suggests multiplying the maximum depth by 0.4 to get the average depth, or you can use any method that seems reasonable to attain average depth.
Pond Capacity (AF)	1.5	Pond Capacity is calculated by multiplying the Pond Surface Area by the Average Pond Depth. If you know the capacity, divide the capacity by surface area and enter the average pond depth in the space above. Note: If pond capacity is determined using a method shown on the "Pond Capacity" sheet, the user may need to modify the value of "Pond Capacity" (cell B9) manually. Note that if the value is modified manually, the formula will be altered for future use.
Multiple Fill Volume Above Initial Fill to Fulfill From Storage Needs- "Multiple Fills" (AF)	14.2	The "Multiple Fill Volume Above Initial Fill" is the acre-feet of water required to meet a <i>from storage</i> component if the <i>from storage</i> component exceeds a one time fill. This section should not include the amount of water needed to fill the pond initially or the amount of water needed to maintain the pond level due to evaporation or seepage. For example: if a pond has a capacity of 5 acre feet and 2.5 acre feet of seepage and evaporation, but the pond is used for irrigation that requires 10 acre feet of from storage for the irrigation use, then you would insert 5 acre feet into this location (10 acre feet needed - 5 acre feet from the initial fill = 5 acre feet of additional storage needed). Note: You must have a "From Storage" component exceeding the initial fill on the permit to include a volume in this space.
Estimated Seepage Loss (AF)	2.2	The "Estimated Seepage Loss" is automatically carried over from the "Seepage Loss" sheet.
Estimated Evaporation Loss (AF)	0.4	The "Estimated Evaporation Loss" is automatically carried over from the "Evaporation Loss" sheet.
Total Volume Required (AF)	18.3	The "Total Volume Required" is calculated by adding the Pond Capacity, Multiple Fills, Seepage Loss, and Evaporation Loss amounts to determine the total amount of storage required.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

IDWR / NORTH

1. Name of applicant(s) Rex Summerfield and/or Terri Summerfield Phone (208) 435-4614
 Name connector (check one): ☐ and ☐ or ☒ and/or
 Mailing address 147 Wilson Rd City Weippe
 State Idaho ZIP 83553 Email rexsummerfield@gmail.com
2. Name of representative, if any _____ Phone _____
 Mailing address _____ City _____
 State _____ ZIP _____ Email _____
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☐ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Unnamed Stream which is a tributary of Cranberry Creek
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
38N	02E	24			NE	SW	Clearwater	Unnamed Stream	
38N	02E	24			NE	SW	Clearwater	Unnamed Stream	
38N	02E	24			SE	SW	Clearwater	Unnamed Stream	

5. Water will be used for the following purposes:
- Amount 02 for Stockwater purposes from 01-01 to 12-31 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount .03 for Irrigation purposes from 03-15 to 11-15 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount .03 for Irrigation From Storage purposes from 03-15 to 11-15 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount 17.6 for Irrigation Storage purposes from 03-15 to 11-15 (both dates inclusive)
 (cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) .05 cubic feet per second (cfs) and/or (b) 18.3 acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Will build three excavated ponds with the capacity of 1.5 AF combined volume. Each pond will have approximately 8 ft dam.
- b. Height of storage dam 8ft feet; active reservoir capacity 1.5 acre-feet; total reservoir capacity 1.5 acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- e. If well is already drilled, when? _____; drilling firm _____;
 well was drilled for (well owner) _____; Drilling Permit No. _____.

Amount _____ (cfs or acre-feet per year)	for _____	purposes from _____ to _____ (both dates inclusive)

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. _____
 - Stockwatering; list number and kind of livestock. 50 Head of mixed stock
 - Municipal; must complete and attach the Municipal Water Right Application Checklist.
 - Domestic; show number of households _____
 - Other; describe fully. Wildlife and Recreation uses will occur in the ponds. Recreation uses consist of swimming and fishing.

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
38N	02E	24									1.0			4.0					5.0 ac
38N	02E	24									S	S		S					
38N	02E	24									IFS			IFS					
38N	02E	24									IS	IS		IS					
38N	02E	24									RS	RS		RS					

Total number of acres to be irrigated: 5.0 acres

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? N/A

- Who owns the property at the point of diversion? Rex Summerfield and/or Terri Summerfield
- Who owns the land to be irrigated or place of use? Rex Summerfield and/or Terri Summerfield
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. 3 ponds will be excavated to collect surface water run off to be used for stock and irrigation purposes. No Dam height will exceed 8ft. Overflow from the ponds will be piped to ponds, stock tanks or irrigation at lower levels on the property. Multiple fills depending on precepitation available.

13. Time required for completion of works and application of water to proposed beneficial use is 4 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Total Storage Calculations

FILE NUMBER	83-XXXXX
REVIEWER	Shaun Maxey
DATE	3/6/2018

This spreadsheet has been designed by Idaho Department of Water Resources to estimate the total seepage, evaporation and fill capacity required for a pond.

User Input
Calculated value
Formula Explanations

Surface Area (AC.)	0.3	"Surface Area" is automatically carried over from the "Seepage Loss" sheet.
Average Pond Depth (FT.)	5	"Average Pond Depth" depicts the actual depth of the pond either measured or estimated. Note: If you know the maximum depth and not the average depth, the Field Examiner's Handbook suggests multiplying the maximum depth by 0.4 to get the average depth, or you can use any method that seems reasonable to attain average depth.
Pond Capacity (AF)	1.5	Pond Capacity is calculated by multiplying the Pond Surface Area by the Average Pond Depth. If you know the capacity, divide the capacity by surface area and enter the average pond depth in the space above. Note: If pond capacity is determined using a method shown on the "Pond Capacity" sheet, the user may need to modify the value of "Pond Capacity" (cell B9) manually. Note that if the value is modified manually, the formula will be altered for future use.
Multiple Fill Volume Above Initial Fill to Fulfill From Storage Needs- "Multiple Fills" (AF)	14.2	The "Multiple Fill Volume Above Initial Fill" is the acre-feet of water required to meet a <i>from storage</i> component if the <i>from storage</i> component exceeds a one time fill. This section should not include the amount of water needed to fill the pond initially or the amount of water needed to maintain the pond level due to evaporation or seepage. For example: If a pond has a capacity of 5 acre feet and 2.5 acre feet of seepage and evaporation, but the pond is used for irrigation that requires 10 acre feet of from storage for the irrigation use, then you would insert 5 acre feet into this location (10 acre feet needed - 5 acre feet from the initial fill = 5 acre feet of additional storage needed). Note: You must have a "From Storage" component exceeding the initial fill on the permit to include a volume in this space.
Estimated Seepage Loss (AF)	2.2	The "Estimated Seepage Loss" is automatically carried over from the "Seepage Loss" sheet.
Estimated Evaporation Loss (AF)	0.4	The "Estimated Evaporation Loss" is automatically carried over from the "Evaporation Loss" sheet.
Total Volume Required (AF)	18.3	The "Total Volume Required" is calculated by adding the Pond Capacity, Multiple Fills, Seepage Loss, and Evaporation Loss amounts to determine the total amount of storage required.

Subject: Corrections to Application For Permit
Attachments: 83-11989-SUMMERFIELD-APP-PG1-AND-MAP.pdf

Mr. Summerfield:

I found a couple of corrections that are required on your Application For Permit before IDWR can publish the required legal notices. The corrections are shown on the attachment.

Please send me another complete copy of the Application once you and Terri have re-signed and re-dated the Application, made the changes shown on the attachment, and attached ownership documentation.

- 1) Please change the Irrigation Storage period shown on Page 1 #5 of your Application to match the other storage uses. The Irrigation Storage period should be the same as the other year round (01-01 to 12-31) storage uses. Please initial and date the change.
- 2) Please write in the note that I have shown on the attachment that indicates all storage uses will occur in the three ponds. Please initial and date the change.
- 3) Please attach documentation showing that you are the owners of the Place of Use property. I currently unable to get into the Clearwater County Internet web site to confirm that you are the owners of the property. You can attach a photocopy of a recent property tax notice bearing your names or a photocopy of the deed signed by the prior owner conveying the property to you.

Thanks,

Shaun Maxey

Is this sufficient for property ownership? If not I will have to make a trip down to Orofino to the court house to get a copy of the deed.

Application For Permit No. 83-11989

Dear Applicants:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the CLEARWATER TRIBUNE on 9/6/2018 and 9/13/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Subject: Legal Notice for 83-11989
Attachments: 83-11989 Legal Notice.doc

Please publish the enclosed legal notice in the Clearwater Tribune on the dates indicated September 6th and September 13th (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately. **Please send a proof once you have the article ready for print for our review.**

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before **9/24/2018**. Your cooperation is appreciated.

Thank you,

Tammy

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right applications. You can find copies of the applications attached to the email and also at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>.

This office can publish notice of the applications as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is September 24, 2018.

Please contact the Northern Region Office at (208) 772-2800 if you have any questions regarding the applications.

Thank you,

Tammy
