2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Water Supply Bank Lease #813 and Rental #266

TO: Water Rights 29-2281 and 29-13624
FROM: Sandra Thiel
DATE: July 17, 2018
RE: Review & Analysis of Applications to Lease and Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: On June 18, 2018, Jerome Clinger submitted leases application for rights 29-2281 and 29-13624. According to the application Mr. Clinger intends to put both rights into the Bank for five years. Between 2016 and 2017 the irrigation place of use was covered in solar panels. Ultimately, Mr. Clinger plans to file a transfer for the rights once he has determined where to irrigate.

The application included a letter from Jerome Clinger dated June 12, 2018. The letter gives consent to Falls Irrigation District to divert water from his wells for delivery through their canal system. On July 2, 2018, I spoke to Mr. Clinger. Falls Irrigation identified the place of use as on their rental application as falling partially on Mr. Clinger's land. Another approximately 80 acres belongs to Grant Neibaur and Sons. The irrigation district will deliver the water through the canals with no noticeable difference. Since Neibaur receives irrigation district water their consent is not required for the rental place of use.

Both Mr. Clinger and Falls Irrigation District submitted rentals for the two water rights. Mr. Clinger requested 18 acres. There was some confusion about potentially using this water for mitigation. However, there is no recognized mitigation plan and ultimately Falls Irrigation will rent all 182 acres. I discussed the use of water with Mr. Clinger on July 12. He explained that during a normal year water users at the end of the irrigation district's delivery system do not always receive their shares. The rental will be used for supplemental water when the canal levels are low.

AUTHORITY TO FILE: According to the February 2018 Power County parcel data, Jerome Clinger owns the property at the lease place of use. Falls Irrigation District manager Shawn Tishendorf signed the rental application.

WATER RIGHT VALIDITY: Both The Snake River Basin Adjudication court decreed both 29-2281 and 29-13624 in 2004. There is clear evidence of irrigation in 2015 (see imagery below). Forfeiture is not an issue.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: The change should not be an enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: These rights are subject to Water District #120. James Cefalo responded with no concerns about the lease or rental.
