Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

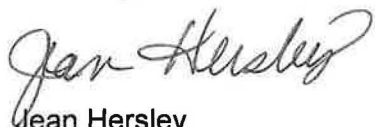

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right(s) 37-26 & 37-27 were leased to the Water Supply Bank (bank) in 2003. As such your water rights, 37-23129 & 37-23131 are considered leased to the Bank also. In accordance with the bank lease acceptance, the lessor/current right holder (right holder) may not use the right(s) while it is in the bank, even if the right(s) is not rented from the bank. The right(s) will remain in the bank until December 31, 2020 unless released earlier by the Water Resource Board or upon request by the right holder. To reduce the term of the lease, the right holder must submit a written request to the department. The department will verify if the right is rented or available for release, and notify the right holder of the release date.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Subject: Ownership Split for Rain McDonald and David McDonald

I am in the process of reviewing the ownership change you submitted on behalf of Rain McDonald and David McDonald. On the quitclaim deed that conveys a portion of water right 37-26, the totals of H. Jean Sligar-Shakstad portion of water right 37-26 appear to be incorrect. The agreement, dated October 2, 2012, that describes each portion, states that H. Jean Sligar-Shakstad's portion is 2.765 cfs of the irrigation portion and 0.307 cfs of the mitigation portion. The total 3.072 cfs. I have attached that agreement for you benefit.

According to the quitclaim deed you provided, 0.876 cfs of irrigation, 0.0885 cfs of mitigation to both Rain McDonald and David McDonald, and Ms. Sligar-Shakstad retaining 1.32 cfs of irrigation and 0.13 cfs of mitigation would make the amount 3.072 cfs of irrigation and 0.307 cfs of mitigation for a total of 3.379 cfs.

Please let me know within 30 days how you would like to proceed on this matter. Thank you.
