RE: License Layout Correction and Ownership Change Concerns for Water Right 67-7959

Dear Mr. Wilson:

I appreciate you calling and speaking with me about the ownership and point of diversion of the water right mentioned above. According to our conversation, the point of diversion was placed closer to the property line to gain elevation from the pond to keep the pond from draining as the creek's level fell. I have reviewed the water right and found that this change will not change the legal description of the water right. The changes have been made in our geospatial database to reflect the correction. I have printed the corrected layout maps for the point of diversion per your request and enclosed them with this letter.

I have also enclosed a copy of our Notice of Change of Water Right Ownership, per your request, to forward to the new property owner.

If you have any questions on this matter, please contact me at (208) 287-4910.

Sincerely,

Clay Webster
Water Rights Supervisor
