RE: License No. 63-33930

I received the July 6th letter on July 21st and upon review found that the number of homes listed to be built in Lakes at Telaga is in error. Identified was 40 lots with domestic water stubs and we have 41.

It is understandable how easily the one was missed as while we are waiting for the neighborhood to build out we are using one of the buildable lots as a park. The future plan is to build on this lot as it has an existing stub for both irrigation and Domestic water. It is Block 1 lot 19.

Thank you for revisiting the license.

Best regards,

Jim Rowell
VP of Lakes at Telaga Board.
