RE: Change of Ownership for Water Rights 13-7633 (Split into 13-7633 & 13-8025)

Dear Water Right Holder:

The department acknowledges receipt of correspondence changing ownership and splitting the above referenced water right. The department has modified its records to reflect the changes and has enclosed computer-generated reports for your records.

Your portion of the water right has a specified point of diversion, nature of use and place of use. If you plan on changing any of these, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

RE: Notice of Change in Water Right Ownership Application
Water Right No. 13-07633

Dear James:

I have enclosed a new Notice of Change in Water Right Ownership for the Departments review. As per your e-mail, I have done some additional research to trace ownership of the property back to Hyrum Smith. As such, enclosed with the application and the letter, are the Deeds transferring ownership of the property in question from Hyrum W. Smith to Wendell H. Smith.

The first group of deeds are the indentures from Hyrum to Wendell. There are four (4) separate Warranty Deeds. Each deed has a circle, which provides reference to the map on the back, identifying which legal description each deed goes to and where it is placed on the section map. The deeds and map are helpful in referencing the location of the property, which the Surber's are subsequent owners of a portion. Also attached and included with this letter is a map, which is a plat map from the County, showing the previous ownership of the property by Wendell H. Smith, as well as an updated map showing the property now owned by the Surber's. These documents are submitted to you for reference in locating the property for purposes of updating the ownership right for the Surber's. Also enclosed is the required fee for the water right.

Upon review of these documents, please notify my office if there are any additional questions or concerns you have. Thank you very much for your cooperation in this matter.

Very truly yours,

ADAM J. MCKENZIE
