Re: Receipting/disposition of fees paid

This transfer was filed on December 7, 2017 with check #14386 (receipt #S036483) for \$815.00 from Brockway Engineering to cover the filing fee. During review of the transfer it was determined that the transfer fee should be based on the total cfs being transferred, 65.41 cfs which equates to an additional fee of \$3345.00. Brockway Engineering submitted the additional fee on March 19, 2018 check #14564 (receipt #S036642). The transfer was amended on July 27, 2018 for a different flow rate of 64.58 cfs. There for a refund of \$40.00 will be requested from our fiscal section to Brockway Engineering.

Greg,

On these documents there are a couple of corrections. At the bottom of the map for 3 STRING CATTLE OF IDAHO LLC, 96.0 acres and the 166.0 acres in your legend need to match, for 96.0 acres.
Also on the Transfer Docs, at the bottom of page 2. A(2) in your statement the date needs to be changed to 1/1/2022. If you choose you could change the bottom of page 3 here to 7037.5 acres.
If you have any questions feel free to contact me.

Thanks, Benny

We missed that right 36-15217 (1968) is an enlargement of right 36-2069 (1948). You will have to transfer these rights in the same ratio, in this case 96 acres/176 acres.

This breaks down to...

61 acres of 36-2069 (1948)
35 acres of 36-15217 (1968)

I believe if you model these amounts and dates for the "from well 2" shutting them off in 2018 (last pumping winter 2017) and starting the "to well" in the spring of 2022 things should work.

Let me know if this will work on your end and we can figure out what needs to change for the transfer application.

Attachments: Scan051730781.pdf

Benny and Corey,

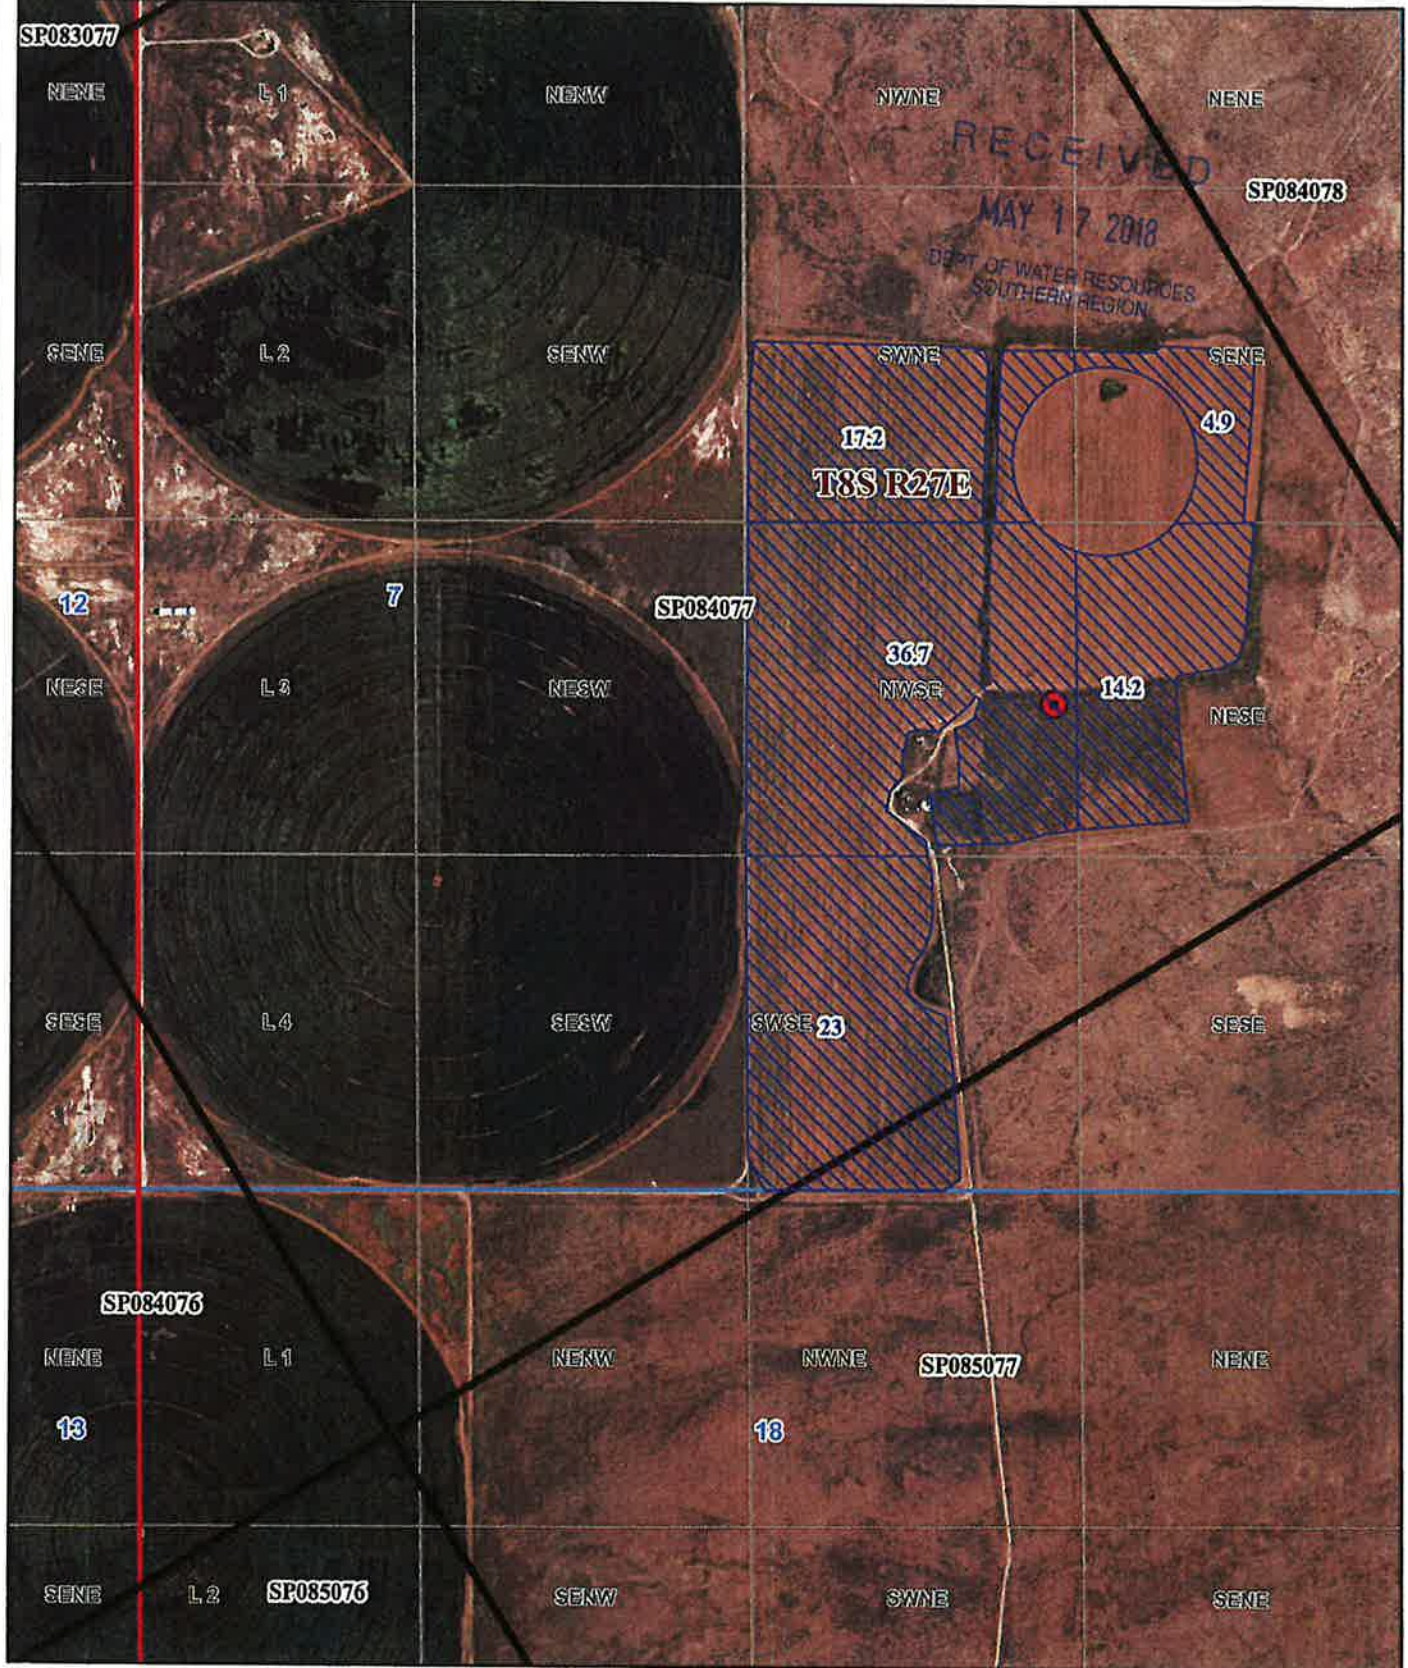

Here is what I propose. Let's leave the 70 acres located in NESW and SESW of Section 7 where they currently are. Make these 70 acres their own water right and identify the POD in the NWSE of Section 7. These 70 acres are already located on property owned by Western Mortgage. If we really need to start irrigating with them at some future date at a different location we will have to submit another transfer.

I ran the ESPA model analysis for 155.0 acres with the same FROM and TO well ESPA model cell locations. I extended the beginning of the use after the transfer is approved to Spring of 2020. I ran the model and no more mitigation issues.

Western Mortgage would have to amend the current transfer but should get a partial refund from IDWR.

Thoughts, concerns, ideas ??

Greg,

I am currently working on the Irrigation Place of Use for Western Mortgage (206 map). It would be most helpful if you could possibly send me the shape files to create the map for the 5178.5 irrigated acres.
Thank you for your help.

Greg,

I have completed a review of the Permissible Place of Use, Exhibit C, and compared it to the map for Western Mortgage's transfer. There are some discrepancies that may need to be changed. The following locations identified on Exhibit C may be incorrect and a revised Exhibit C with a corresponding map will need to be submitted.

Twp 07S, Rge. 26E, Sec. 22, SESW 2.8 acres. May need to be identified in the SWSW.
Sec. 29, NENE 2.7 acres. Possibly no irrigation.
Sec. 34, NWSW 0.1 acres. Possibly no irrigation.

Twp 08S, Rge. 26E, Sec. 1 SWSE 40 acres. May need to be identified in the SWSW.

Greg,

Thank you for the deeds I appreciate it. After reviewing the deeds, there is a small parcel of land in 8S, 26E, Sec 4 NWNW that was excluded and therefore cannot be included in the permissible place of use (PPU). Consequently a corrected Exhibit C reducing the acres in 8S, 26E, Sec 4 NWNW PPU by 2.1 acres and the total acres in the PPU needs to be reduced by 2.1 acres needs to be submitted to the Department.

Benny,

I will provide IDWR with a paper Warranty Deed that was recorded by Blaine County. My point is that IDWR should stop using an outdated shape file that is inaccurate when trying to determine who owns what property and forcing water right holders to perform extra work that is not warranted. The County GIS database is the most accurate and up to date information available because they are based on the most recent recorded warranty deeds.

The Department requires a current deed showing they own the property. The applicant bears the burden of providing sufficient information. We do not accept the Counties GIS shapefiles for the reasons you, yourself stated, they could have been replaced and if so the shapefiles may not be updated. The transfer application may be rejected if the additional information requested from the applicant is not timely received or is inadequate.

The current shape file that IDWR has on file for all of its agents to use for property ownership is outdated and not accurate. Even a paper warranty deed recorded last week in any county in the State could have been replaced yesterday with an updated warranty deed. Therefore the Department should accept that the Counties actually update their GIS shapefiles and records as ownership of property and parcels occur.

The information contained in your email is not sufficient to prove ownership of the property, may not be accurate, and can be altered. Deeds are true conveyance documents and are the best evidence to demonstrate a change in the ownership of land or the water right has taken place. See Transfer Processing Memorandum No. 24, 5a(1,2) Evaluation of Authority to File an Application for Transfer. Therefore the Department requests a copy of the deeds for the lands in question. RE: Western Mortgage & Realty Co. Transfer #82082

Dear Mr. Sullivan,

Following up from our recent phone call, a recent review of the transfer application you submitted to the Idaho Department of Water Resources (Department) on behalf of Western Mortgage & Realty Co. revealed issues and/or incomplete items that are needed for processing. As a result, if the following necessary information is not received within 30 days of the date of this letter, the Department will return the application and initiate a refund of the \$815.00 filing fee to Brockway Engineering for check #14386 per IDWR receipt S036483.

- The three water rights (36-2069, 36-15217, and 36-7356C) list Metropolitan Life Insurance Co. as a Security Interest. Note if a water right and/or property involved with a transfer application is subject to a lien, deed of trust, mortgage, contract, or other encumbrance, a notarized statement, or a statement on official letterhead, agreeing to the proposed change(s) signed by an authorized representative of the holder of each lien, deed of trust, mortgage, contract, or other encumbrance must be included with the application. Examination of the application file indicates that this authorization was never submitted with the application. Without this authorization the Department cannot process the application.
- During the review of the water rights listed in the application, it has been determined that the total authorized cfs under these rights is 65.41 cfs. Since the permissible place of use is being enlarged and/or changed, for 25 rights totaling 62.97 cfs plus the portions of the 3 additional rights for 2.44 cfs, the total 65.41 cfs is considered as being transferred. Therefore since 65.41 cfs is being transferred, then an additional \$3345.00 is needed for the transfer fee as well as a corrected page 3 (cfs amounts). The fee for the application was determined as follows (fee for 65.41 cfs is \$3860.00 + \$300.00 for ownership changes/splits = \$4160.00 - \$815.00 submitted with the application = \$3345.00).
- The application indicates that the property involved with the transfer is owned by the applicant. Upon review of the tax lot information available to the Department, it is unclear if the applicant owns all land within the proposed permissible place of use (PPU). Therefore, the Department requests copies of deeds or other conveyance documents that demonstrate ownership of the land or documentation that authorizes the changes on behalf of the current owner of the proposed new place of use.

Sincerely,

Re: Western Mortgage & Realty Co

Dear Mr. Skinner:

Western Mortgage & Realty Co. recently purchased portions of water rights 36-7356C, 36-2069 and 36-15217. The attached transfer applications proposes moving the 59.0 acre from 36-7356C, the 105.6 acres from 36-2069 and the 60.4 acre portion of water right 36-15217 into an 7039.7 acre permissible place of use (PPU).

It is proposed and necessary to update the irrigation place of use (POU) of 5,178.5 acres. The attached aerial maps and exhibits identify the location of the PPU and POU.

No new wells are proposed with this transfer. The beneficial use and period of use will not be changing. The ownership of portions of 36-7356C, 36-2069 and 36-15217 purchased by Western Mortgage & Realty Co. will have to be update by the Idaho Department of Water Resources.

The ESPA Model analysis was used to calculate the effect of this transfer on the River Reaches of the Snake River. No mitigation is required.

Please contact me if you have any questions.

Sincerely,

Greg Sullivan, M.S., Engineer
