IRRIGATION within TETON County

T04N R45E S29	SWSW	24.0
	Right Acre Limit:	9.8
	POU Total Acres:	24.0

Conditions of Approval:

1. 206 This right is limited to the irrigation of a specific 9.8 acres within the 24 acre place of use authorized by this right in a single irrigation season. The specific 9.8 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 9.8 acres to be irrigated within the 24 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
2. R63 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
3. 193 A portion of this right mitigates for the depletion of water resulting from the diversion and use of water under Right 22-14310. To prevent injury to other water right holders, the right holder shall cease the use of 0.01 cfs, 0.6 af, and 0.2 acres of this right. If the mitigation portion of this right is used for any purpose, then water shall not be diverted under Right 22-14310. If the mitigation portion of this right is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under the uses of Right 22-14310 that are being mitigated shall be reduced by the

4. S37 same proportion as the reduction to this right.
The use of water for irrigation under this right may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than November 24, 2008.
5. 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
6. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
7. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
8. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
9. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
