RE: Application for Transfer 82606

Dear Mr. Jackson:

On August 7, 2018, Chad & Jane Barnes and Craig Bloxham filed Application for Transfer 82606, proposing to change the point of diversion for water rights 29-14115 and 29-14031. Barnes and Bloxham propose to move their shared point of diversion closer to the spring source for the water rights, upstream of your point of diversion. The application describes a splitter structure at the proposed point of diversion that would divide the stream into 2/3 and 1/3.

The proposed change will have no hydrologic impact outside of the immediate area of the spring / unnamed stream. Therefore, instead of providing public notice of the application, I have decided to send direct notice of the application to you as the owner of a water right with a point of diversion in the immediate area of the proposed change.

Any protest against the proposed change must be filed with the Department of Water Resources Eastern Region together with a protest fee of \$25.00 for each application on or before August 27, 2018. If you choose to protest the application, you must also send a copy of the protest to the applicants. Please free to contact me with any questions about the applications.

Sincerely,

A handwritten signature in black ink, appearing to read 'J Cefalo', written over a horizontal line.

James Cefalo
