3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

13	Narrative: The Department received this application on July 11, 2018. Idaho Power wishes to place the entire right in the Bank. This right was decreed in 2004 and has been used in the last 5 years. Forfeiture is not an issue. The engineers report in the WR backfile states this right is used for cooling electrical condensers and that it is mostly non-consumptive. This right will be leased but can only be rented as non-consumptive for industrial use unless Idaho Power can provide the consumptive use information. This is a ground water right that is currently within WD 120 and the GWMA-ESPA.
