CONDITIONS OF APPROVAL

5. Rights 22-14311, 22-14312, 22-14313, 22-14314, 22-14315, 22-14316, 22-14317, 22-14318, and 22-14319 are limited to the irrigation of a specific 51.1 acres within the 579.1 acre place of use authorized by this right in a single irrigation season. The specific 51.1 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 51.1 acres to be irrigated within the 579.1 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
6. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
7. Prior to the diversion and use of water under Transfer approval 82376, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
8. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.
9. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
11. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. As of February 20, 2009, this water right is within State Water District No. 01.
7. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
8. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
9. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
10. The following rights are diverted through point(s) of diversion described above: 22-7205, 22-7210, 22-7265A, 22-7265B, 22-7313A, 22-7313B & 22-7314
11. The following rights are diverted through point(s) of rediversion described above: 22-7210, 22-7270, 22-7313A & 22-7313B
12. The use of water for irrigation under this right may begin as early as April 1 and may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water before April 15 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
13. Water diverted under this right is exchanged by injecting water diverted under this right into Teton River at the points of injection described above, and diverting an equal amount from Teton River at the point of rediversion described above.
14. Exchange well diversion capacity is owned half by Schwendiman Farms and half by M & B Enterprises for a total capacity of 56.36 cfs.

WATER RIGHT NO. 22-7210

CONDITIONS OF APPROVAL

15. Totalizing measuring devices shall be maintained at the exchange wells and rediversion pumps from the Teton River.
16. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pump and the exchange wells will be allowed even if the exchange wells are pumping water into the Teton River.
17. The exchange wells must inject water into the Teton River whenever water is being diverted from the river under this water right, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.
18. Three exchange wells are located at or near the point of diversion described above.
19. The rate of diversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange wells.
20. Place of use does not include federal public lands unless authorized in writing by the managing federal agency.
21. The right holder shall accomplish the change authorized by transfer 74650 within one year of the date of February 20, 2009.
22. Failure of the right holder to comply with the conditions of transfer 74650 is cause for the Director to rescind approval of the transfer.
23. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Right Acre Limit: 719.0

POU Total Acres: 3906.9

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 719 acres within the authorized place of use in a single irrigation season.
2. Rights 22-7205, 22-7210, 22-7265A, 22-7265B, 22-7313A, 22-7313B, and 22-7314. when combined shall not exceed a total diversion rate of 56.36 cfs.

Transfer No. 82376

WATER RIGHT NO. 22-7313A

As Modified by Transfer No. 82376

CONDITIONS OF APPROVAL

3. Rights 22-7210, 22-7271, 22-7313A, and 22-7313B when combined shall not exceed a total diversion rate of 28.1 cfs and the irrigation of 11,476.5 acres.
4. Rights 22-7210, 22-7271, 22-7287, 22-7131A, 22-7313B and 22-12656 when combined shall not exceed a total diversion rate of 33.01 cfs, a total annual maximum diversion volume of 13,680 af at the field headgate, and the irrigation of 3907.2 acres.
5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. As of February 20, 2009, this water right is within State Water District No. 01.
7. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
8. The following rights are diverted through point(s) of diversion described above: 22-7205, 22-7210, 22-7265A, 22-7265B, 22-7313A & 22-7313B
9. The following rights are diverted through point of rediversion described above: 22-7210, 22-7270, 22-7313A & 22-7313B.
10. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
11. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
12. The use of water for irrigation under this right may begin as early as April 1 and may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water before April 15 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
13. Water diverted under this right is exchanged by injecting water diverted under this right into Teton River at the points of injection described above, and diverting an equal amount from Teton River at the point of rediversion described above.
14. The rate of diversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange wells.

WATER RIGHT NO. 22-7313A
As Modified by Transfer No. 82376

CONDITIONS OF APPROVAL

15. Totalizing measuring devices shall be maintained at the exchange wells and rediversion pumps from the Teton River.
16. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pump and the exchange wells will be allowed even if the exchange wells are pumping water into the Teton River.
17. The exchange wells must inject water into the Teton River whenever water is being diverted from the river under this water right, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.
18. Exchange well diversion capacity is owned half by Schwendiman Farms and half by M & B Enterprises for a total capacity of 56.36 cfs.
19. Three exchange wells are located at or near the point of diversion described above.
20. Place of use does not include federal public lands unless authorized in writing by the managing federal agency.
21. The right holder shall accomplish the change authorized by transfer 74650 within one year of the date of February 20, 2009.
22. Failure of the right holder to comply with the conditions of transfer 74650 is cause for the Director to rescind approval of the transfer.
23. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
