Legend

The shaded areas shown on this map represent platted lots and the places of use associated with Water Right 22-13178. The lots shown are illustrative only. See recorded plats associated with the Teton Springs Golf and Casting Club for specific dimensions and details.	▨
A separate raw water system, which obtains water from the Trail Creek Sprinkler Irrigation Company and Sherman Springs, supplies water to the golf course, open space and related water features. The approximate location of water features are shown with a dashed line.	◌
The blue lines represent the approximate location of the principal distribution system mains that service the places of use associated with Water Right 22-13178.	—
This map also shows the approximate location of section lines and public land survey corners for reference.	11 12 14 13
The red lines represent approximate location of main lines associated with the Trail Creek Sprinkler Irrigation Company.	—
