Dear Parties,

My notes from the November 16, 2017 status conference for these applications suggest we were expecting a resolution around the middle of December and that I would follow up with an email if I didn't see anything around then.

I have not seen anything, but I did not send an email yet, so I'm checking in now to see where things are at.

Please let me know if you want to schedule a status conference, or if you need anything else from me. Otherwise, if you all are comfortable that things are moving forward, I'm content to wait.

Nick,
