RE: Change In Address For Water Right No(s) 95-14226 & 95-9496

Dear Property Owner,

The Department of Water Resources (Department) acknowledges receipt of your Change in Address.

Because neither of the above referenced water right numbers are in the name of Dale Thomas, the Department is unable to process the Change in Address and requires addition information in order to proceed.

Water Right 95-14226:

- Notice of Change in Water Right Ownership (Notice) and a notarized conveyance document, either in the form of a warranty deed, quickclaim deed, court decree, contract of sale, etc.

Water Right 95-9496:

- Assignment of Permit (Assignment) and the required \$25 filing fee.

Enclosed you will find the documents required for the Department to change the water rights into your name. You will also find a copy of the Proof Due Notice that was mailed to the Prairie Avenue Mini Storage LLC in May along with the Statement of Completion. The fee for the Statement is \$50.

Please feel free to contact either myself or Dawn Lenon at (208) 762-2800 or by email at Natalie.steading@idwr.idaho.gov or dawn.lenon@idwr.idaho.gov if you have any questions.

Sincerely,

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 95-09496

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **August 01, 2018**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Darla Block

INSTRUCTIONS FOR FILING PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF:

In order for a permit holder to fulfill the conditions of the permit to obtain a water right license, the permit holder must submit the Statement of Completion for Submitting Proof of Beneficial Use form (proof) together with the license examination fee (if required) **OR** submit the proof together with a completed field examination report prepared by a certified water right examiner on or before the date set in the permit for the proof. The information submitted by the permit holder will enable the department to determine the extent of beneficial use before the license is issued. The information entered on the proof form should show the extent of actual development of the project and should correspond to that authorized by the permit. If it does not, an amendment (change) to the permit may be required.

WHAT TO DO IN CASE YOU HAVE NOT FULLY APPLIED THE WATER TO BENEFICIAL USE:

If the development authorized by the permit has not been completed in the time allowed, the permit holder may submit a request for extension of time in which to submit the proof. In order for a request for extension of time to be considered without loss of priority, it must be filed prior to the date on which proof of beneficial use is due. Each request for extension of time will be considered on its own merits.

WHAT IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME:

If you have applied the water to beneficial use, but did not submit the proof of beneficial use on or before the date set for the proof, the permit will lapse. A lapsed permit may be reinstated **within sixty (60) days** from the date the department sends the lapse notice. In order for the department to reinstate the permit, the permit holder must show reasonable cause why the permit should be reinstated. Submission of an acceptable proof of beneficial use form within the sixty (60) day period will be considered as reasonable cause for reinstatement.

If you applied the water to beneficial use and **more than sixty (60) days** have passed since mailing of the lapse notice, proof of beneficial use must be submitted with a statement of reasonable cause for filing late proof of beneficial use, a Beneficial Use Field Report prepared by a certified water right examiner, and a reinstatement application fee of \$250 pursuant to Idaho Code § 42-218a(2).

EXAMINATION FEE:

Idaho Code §§ 42-217 and 42-221 require an examination fee as part of the proof of beneficial use submittal if a completed field examination report prepared by a certified water right examiner is not submitted as part of the proof. The fee is based upon the rate of diversion or volume of storage water claimed on the proof of beneficial use form. **The appropriate fee can be determined from the license examination fee schedule on the back of these instructions.**

ISSUANCE OF LICENSE:

The department will issue a license of water right based on the determination of the amount of water beneficially used in compliance with existing law. The license will include specific information to describe the water right developed.

NOTE - You must comply with the conditions of approval of your permit or seek to have the department waive the conditions. (See the section titled "Conditions of Approval" near the bottom of your permit).

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

A license examination fee is not required in connection with permits which use a ground water (well) source **AND** have a total rate of diversion of 0.04 cfs or less or where the total volume stored is 4.0 AF per annum or less.

A license exam fee is required for ANY permit which uses surface water.

The license examination fee is based on the storage volume (acre-feet per year or AFY) or on the diversion rate (cubic feet per second or CFS). For permits proposing both a diversion rate and a storage volume, determine each fee separately and pay the greater of the two.

Checks should be made payable to the Idaho Department of Water Resources (IDWR).

RE: Coeur D'Alene-Spokane River Basin Adjudication (CSRBA) Water Right No(s). 95-14226

Dear Property Owner:

We have been advised you may be the new owner of the property with the water rights referenced above (see enclosed report).

We are in the process of recommending claims that have been filed in the CSRBA, and per data we have reviewed, it appears that water right 95-14226 is appurtenant to property you own. Before we can modify our records to reflect your ownership of this water right, we need to have the enclosed Notice of Change of Water Right Ownership form completed and submitted with the proper documents showing your ownership. Please follow the instructions included with this form and return to our office with all of the required information.

Please do not hesitate to contact our Adjudication staff at 1-800-451-4129 if you have any questions regarding this matter.

Sincerely,

Lori Harris

4. If the water rights and/or adjudication claims were split, how did the division occur?

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

5. Date you acquired the water rights and/or claims listed above: _____.

6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).

7. This form must be signed and submitted with the following **REQUIRED** items:

- ☐ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☐ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☐ Filing fee (see instructions for further explanation):
 o \$25 per *undivided* water right.
 o \$100 per *split* water right.
 o **No fee is required for pending adjudication claims.**
☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

**INSTRUCTIONS FOR FILING A
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All persons owning or claiming ownership of a water right or claim are required to provide notice to the Department of Water Resources (IDWR) of any change in ownership of any part of the water right or claim or of any change in the owner's mailing address within 120 days of the change. Forms to report ownership changes and/or to update an address are available on IDWR's website at. In addition, all new owners of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

A notice is required for changes in ownership from one individual to another, from an individual to a business entity (even if the business is owned by the individual), or from one business entity to another (even if both businesses are owned by the same individual). Adding or removing a name is considered an ownership change which requires the submission of evidence to support the change and the filing fee.

Separate brochures describing the adjudication of water rights and the ownership change notice requirement are available from IDWR. Please contact your nearest IDWR office if you would like more information or need help completing this form. A list of IDWR offices is on page 2 of these instructions, or you can call 1-800-451-4129. Water right information can be found on the department's website using the Water Right and Adjudication Search link at www.idwr.idaho.gov.

Please note:

- Unlike licensed or decreed water rights, which are real property, water right permits, applications for new water rights, and applications to transfer existing water rights are considered the personal property of the permit holders/applicants. Permit holders and applicants must assign their interest in a permit and/or application to the new owner. Assignment forms are available on the department's website at www.idwr.idaho.gov, or from any IDWR office. The fee for an assignment of permit is \$25. There is no charge for an assignment of application for permit or application for transfer.
- If you want to change or add a point of diversion, place of use, season of use, or purpose of use of a water right, you must file an Application for Transfer. The ownership of a water right can also be updated through the transfer process.
- The combined portions of a divided ("split") water right cannot exceed the total flow rate, volume, or period of use of the original right.
- IDWR has no jurisdiction concerning easements, rights-of-way, and zoning matters. The buyer and seller must make these provisions where necessary.

LINE INSTRUCTIONS:

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be divided ("split") to provide you your share of each right. Mark the box "Yes" if a division of the water right is required.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, and the water rights are held by the organization, please do not use this form to record a change. Please contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but you do not know the numbers, you may contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. Fill in the name of the current water right holder/claimant.
3. Fill in each name as listed on the conveyance document and complete the current contact information. For water rights, IDWR will update the ownership to the individual(s)/entities listed on the conveyance document. For active adjudication claims, IDWR will update the claimant information to match the conveyance document unless the new claimant provides good cause for the variance.
4. You may have acquired only a portion of the water right(s) held by the seller. If you did not acquire the entire water right/property, please check the appropriate box. Water rights are often conveyed as an appurtenance to the land where they are used, and the conveyance document for the land often does not have specific language regarding the water right. Please read your deed or other conveyance document carefully to be sure. When the conveyance document does not specifically address water rights, it will be assumed that the water rights are to be split proportionate to the amount of land acquired.

5. Indicate the date the water rights and/or adjudication claims were conveyed to you. This may be the date of closing in the case of a real estate transaction, the date a contract was signed, or the date of a court order.
6. If you are unsure about the status of your water right in the Water Supply Bank, go to: www.idwr.idaho.gov/apps/ExtSearch/WSBSearch/WSBSearch.aspx, input your water right number and click "Search." If you find your water right is in the Water Supply Bank and you want to release it so you can use it, you can download the Request to Release form from the forms portion of our website: www.idwr.idaho.gov. Your water right may not be available for immediate release if rented by another water user.
7. **ATTACHMENTS:**

IDWR cannot process this change without **documentation of ownership**. The documentation may be in the form of a deed, court decree or other conveyance document. If you are submitting a quitclaim deed and the grantor's name does not match the water right holder of record, you will need to provide a chain of title that goes back to the water right holder/claimant of record. You may obtain this information from the assessor's office in the county where the property is located. **Items that are not conveyance documents are deeds of trust, mortgages, purchase and sales agreements, and property tax notices.**

Submit a **plat map, survey map, or aerial photograph** of the place of use for each water right or claim listed in item #1 (if necessary to clarify division of water rights or complex property descriptions). If your right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency or equivalent aerial photograph with the irrigated acres outlined and point(s) of diversion clearly marked. You also have the option of printing a map using the map tool on IDWR's website at: www.idwr.idaho.gov. It is not necessary to obtain a new survey for purposes of this form before contacting IDWR.

The Idaho Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication or the Northern Idaho Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the **filing fee** is \$25 per water right, except for those water rights that will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right.

If the water right is leased to the Water Supply Bank and there is more than one owner, a Lessor Designation form must be completed to specify who the designated lessor will be. Each of the owners must sign the Lessor Designation form.

An IRS Form W-9 is required for all ownership changes pertaining to water rights leased to the Water Supply Bank. Refer to instructions in section 6 above to determine if the water right undergoing an ownership change is leased to the Water Supply Bank. An IRS W9 form can be downloaded from the Department's website: www.idwr.idaho.gov.

8. One of the new owner(s) must sign the form in the space(s) provided. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.

When you have completed the Notice of Change in Water Right Ownership, retain a copy and **file the original form, necessary attachments, and filing fee with the IDWR office nearest you. Ownership changes for water rights leased to the Water Supply Bank should be sent to the State Office.**
