APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant(s) Mearl Gene Foster or Cindy Sue Foster Phone 208-936-9319
   Name connector (check one): ☐ and ☑ or ☐ and/or
   Mailing address 28205 River Ridge Rd City Wilder
   State ID ZIP 83676 Email geneandcindyfoster@frontier.com
2. Name of representative, if any N/A Phone
   Mailing address City
   State ZIP Email
   a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
      ☐ Send original correspondence to the applicant and copies to the representative.
   b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
      ☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Ground Water which is a tributary of N/A
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
04N	05W	20			SE	NE	Canyon	Ground Water	D0053585

5. Water will be used for the following purposes:
   Amount 0.10 cfs (cfs or acre-feet per year) for Irrigation purposes from 3/1 to 11/15 (both dates inclusive)
   Amount 0.04 cfs (cfs or acre-feet per year) for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
6. Total quantity to be appropriated is (a) 0.14 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).
7. Proposed diverting works:
   a. Describe type and size of devices used to divert water from the source. Domestic well pump
   b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
   c. Proposed well diameter is 6 inches; proposed depth of well is 365 feet.
   d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☑ No
   e. If well is already drilled, when? 6/16/09; drilling firm Adamson Pump & Drilling; well was drilled for (well owner) Ron Reed; Drilling Permit No. 856664.

$100 FOR APP FOR PERMIT RECEIVED 5-3-18 - W046300. - W/ ORIGINAL INCOMPLETE APP.

For Department Use

Received by CS Date 7/2/18 Time 11:40 Preliminary check by RS

Fee $ 125.00 Receipted by CS Receipt No. W046501 Date 7/2/18

*L>FOR WELL UPGRADE FEE. ORIGINAL INCOMPLETE APPLICATION INCLUDED $100 FILING FEE W046300.

8. Description of proposed uses (if irrigation only, go to item 9):
   a. Hydropower; show total feet of head and proposed capacity in kW. _____
   b. Stockwatering; list number and kind of livestock. _____
   c. Municipal; must complete and attach the Municipal Water Right Application Checklist.
   d. Domestic; show number of households 1 home
   e. Other; describe fully. _____

9. Description of place of use:
   a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
   b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
04N	05W	20				3.3													3.3
04N	05W	20				D													

Total number of acres to be irrigated: 3.3

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Canal water from Boise Project Board of Control. This water is being denied by developer through pressurized irrigation pump.

11. a. Who owns the property at the point of diversion? Applicant
    b. Who owns the land to be irrigated or place of use? Applicant
    c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Requesting to be able to irrigate off of our well because the developer refuses to turn on the pump that provides irrigation water to our property. Proposed Water Bearing Zone for existing well 230 to 365 feet per well log.

13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Application for Permit No. 63-34565

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the PRESS TRIBUNE on 8/2/2018 and 8/9/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely
Administrative Assistant

Neely, Rachel

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your original application on 5/3/18. This application was returned as an incomplete filing on 6/8/18. This office received an amended version of the application on 6/14/18. Unfortunately, the application is still incomplete. However, the form now contains sufficient information to discern the intended water use. In the interest of expediting the application, per your request, IDWR prepared a draft application (enclosed) for your signature and review. Please review this draft application, make any necessary corrections, and return an original signed version to this office.

For an acceptable filing, the following summarizes the items added and/or modified from your 6/14/18 application (enclosed):

- **Item 5 - Proposed Use –**
  - Irrigation use listed separately and drafted for maximum allowable rate of 0.10 cfs (0.03 cfs/acre x 3.3 acres).
  - Domestic use listed separately and drafted for maximum allowable rate of 0.04 cfs for one home.
- **Item 9 - Place of Use –** The domestic use place of use was identified as being within the same 40 acre-tract as the irrigation use based on aerial imagery.
- **Item 13 – Time** – A time frame from 1 to 5 years should be identified for this item. The application form was drafted with maximum allowable initial time frame of 5 years.
- **Item 14 - The Map –** The domestic place of use was outlined on the draft map.

For a complete filing (to clarify your proposal) and to prepare it for the next application processing step (publication in the local newspaper) the following summarizes the items added and/or modified from you 6/14/18 application (enclosed):

- **Item 1 - Name or Address –** Modified to clearly state each individual name.
- **Item 4 - Point of Diversion(s)** – The well tag number of placed in the "Local name or tag #" field.
- **Item 6 - Total Quantity** – Modified to reflect addition of maximum allowable rates for individual uses stated above.
- **Item 7 - Description of the Diverting Works –** The name of the person who the well was original drilled for and Drilling Permit No. were corrected based on IDWR records.

- **Item 11 – Ownership** – Completed items fully on draft form.
- **Item 12** – Narrative – The proposed water bearing zone (underground depth interval from which the well draws water) was added. This information is not necessary for a complete filing, however, it is necessary for publication of the application.
- **The Fee** – A complete water right permit application fee was received. However, a well drilling fee permit upgrade fee is required. All wells drilled in Idaho after June 30, 1987, require well drilling permits. A well might need a water right along with the drilling permit, depending on the intended use of the well. Your well was drilled in 2009 under a $75 domestic well drilling permit. A $75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well. The proposed use from your well does require water right approval, and your water right application seeks that approval. The well drilling fee for a well requiring a water right is $200 instead of $75. Per Well Construction Standards Rules (IDAPA 37.03.09.045.05.b), IDWR must collect the unpaid balance of $125 for a well drilled under those circumstances. This fee DOES NOT need to be paid for the water right permit application to be complete and acceptable for filing. However, IDWR does request you please remit $125 to upgrade your well drilling permit within the next thirty (30) days to facilitate processing of your water right application.

The incomplete application is enclosed. A draft complete application based on IDWR understanding of your proposal is also enclosed. Please review the draft application, make any necessary corrections, and re-submit the application within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. Also, this letter includes items to clarify your proposal to the extent necessary for publication. You may receive future correspondence regarding more specific details of your application once the application is assigned to staff for processing. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff

5. Water will be used for the following purposes:
   Amount 0.10 cfs (cfs or acre-feet per year) for Irrigation purposes from 3/1 to 11/15 (both dates inclusive)
   Amount 0.04 cfs (cfs or acre-feet per year) for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
6. Total quantity to be appropriated is (a) 0.14 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).
7. Proposed diverting works:
   a. Describe type and size of devices used to divert water from the source. Domestic well pump
   b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
   c. Proposed well diameter is 6 inches; proposed depth of well is 365 feet.
   d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☑ No
   e. If well is already drilled, when? 6/16/09; drilling firm Adamson Pump & Drilling; well was drilled for (well owner) Ron Reed; Drilling Permit No. 856664.

For Department Use

Received by _____ Date _____ Time _____ Preliminary check by _____
Fee $ _____ Receipted by _____ Receipt No. _____ Date _____

8. Description of proposed uses (if irrigation only, go to item 9):
   a. Hydropower; show total feet of head and proposed capacity in kW. _____
   b. Stockwatering; list number and kind of livestock. _____
   c. Municipal; must complete and attach the Municipal Water Right Application Checklist.
   d. Domestic; show number of households 1 home
   e. Other; describe fully. _____

9. Description of place of use:
   a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
   b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on May 3, 2018. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 3-** Source was not provided correctly. If you plan to collect water from a spring, please describe what this water is tributary to. If you did not collect the water, where would it naturally go? This could be the name of a creek or the spring may sink into the ground.
- **Section 5 & 6-** The diversion rate must be in cubic feet per second. This should be a single number rather than a range. For 60 acres, you would be allowed to apply for .02 cfs per acre for a total diversion rate of 1.2 cfs. This number should be included in section 4 next to "amount" for "irrigation." It should also be included in section 5 for total quantity to be appropriated.
- **Section5-** Application should also include Domestic use.
- **Section 9-** Place of Use irrigated was not provided correctly. The number of acres to be irrigated in each 40-acre tract must be shown. You must indicate the location of each proposed use listed in Section 4 using the appropriate symbol for each use. For irrigation, the number of acres in each **40-acre tract** must be shown.
- **Section 14-** The Map was not provided correctly. the map must clearly identify the proposed point of diversion and place of use. Please amend your map by outlining where you are planning on irrigating and marking the point where the well will be drilled.
  You must include an 8½" x 11" map that clearly identifies the proposed point of diversion, place of use, section #, township, and range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred or you may use the mapping tool found on our website at http://maps.idwr.idaho.gov/map/. To use the tool click on the "Change layers" button at the top of the screen, select the background drop down menu and add the 2011 NAIP background. Then click on the "Locate" button to find the location of the proposed project.

The original incomplete application is enclosed. Please make the necessary amendments to the original form, **initial and date next to the changes**; and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff

Dear Sirs:

I mailed my original application to you on April 30, 2018, but forgot to indicate that this is an expedited request.

Please expedite my application so that I can water more than ½ acre from my domestic well, because the developer has refused to turn on the pressurized irrigation pump that provides my irrigation water.

Thank you.

Sincerely,

Mearl G. Foster
