Application for Permit No. 65-23762

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO WORLD on 8/1/2018 and 8/8/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely
Administrative Assistant

Re: Application for Permit No. 65-23762 Additional Information Required

Dear Applicant:

Your recent application for permit proposing the use of water for Domestic use is being processed. The application has been assigned a priority date but cannot be processed further until the following items are clarified:

- **5 - Proposed Use**

As we discussed on the phone if you plan on using for water for any sort of irrigation such as the watering of gardens and lawn you should add "irrigation" as a beneficial use to this section. If you add this use it needs to have a rate and season of use.

IDWR uses a standard rate of 0.02 cfs per acre for irrigation. The standard season of use for the proposed place of use is 03/15 – 10/31. Additionally, IDWR uses 0.04 cfs as the standard rate for domestic purposes.

- **6 - Total Quantity**

If you add irrigation or increase the proposed rate for domestic use the total quantity to be appropriated should be increased.

- **9 - Place of Use**

If you added irrigation to section 5 then you need to add the location where irrigation is to take place to this section. Indicate the number of acres to be irrigated in each quarter section and complete the totals column and total acres blank.

- **12 - Narrative**

Please include the subdivision, lot, and block information in this section.

- **13 - Time to Complete Works**

The department recommends applicants use the maximum time allowed to complete the project and submit proof of beneficial use, which is five (5) years.

- **The Fee**

If the total quantity to be appropriated is increased then the processing fee may have changed. Consult the enclosed fee schedule and submit any additional fee if any is required.

Please submit the requested information within thirty (30) days for application processing to continue. You may seek additional time to provide the information by making a written request as described in Water Appropriation Rule 40.01.d. The Department will take action to void the application if a timely written reply has not been received within thirty (30) days. Refunds are not issued for voided applications. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.

Sincerely,

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on April 2, 2018. We returned your application to you on June 8, 2018 to complete the legal description of the point of diversion. We received the application back from you on June 13, 2018. However, the application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following item is addressed:

- Item #4 Location of point of diversion – The application received on June 13, 2018 described the diversion location as the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 22, Township 10N, Range 04E. That description does not match the location depicted on the attached map, which shows the location marked with an "X" within the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 22, Township 10N, Range 04E. Please correct either the map or the description in item #4 so the locations are consistent.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on April 2, 2018. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 4-** Point of Diversion(s) was not provided correctly. Please include the township, range, section, and **quarter quarter** description of where the pump will be placed.

The original incomplete application is enclosed. Please make the necessary amendments to the original form, **initial and date next to the changes**, and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff
