Application For Permit No. 85-15791 REVISED

Dear Applicant:

The Legal Notice did not get published in the Lewiston Tribune on August 16 & 23 as previously thought. The contact at the paper retired and they did not get the publication request. We have resent the request to publish the legal notice. My apologies for the error.

A legal notice of the application has been prepared and is scheduled for publication in the LEWISTON TRIBUNE on 9/6/2018 and 9/13/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman

Subject: Water Appropriation, Permit # 85-15791

Dear Mr. Frederick:

We received a request for comment along with a copy of an application for a water appropriation permit to appropriate 0.05 CFS, from two proposed wells in Nez Perce County at township 34N, range 5W, Section 15. The appropriated water will be used for domestic use, from January 1 to December 31. Assuming all federal, state and local permits have been obtained, regulations met, and reviews completed, we offer the following comments.

Because we assume any water of the State which occurs beneath the surface of the earth in a saturated geological formation of rock or soil to be ground water (Idaho Code 58.01.02.010.45), we assume there to be hydrologic gradient connectivity to surface waters of the State. It is the policy of the State of Idaho Ground Water Management Plan that existing and projected beneficial uses of ground water and interconnected surface water be maintained and protected and degradation that would impair beneficial uses of ground water and interconnected surface water not be allowed.

Thank you for the opportunity to comment on your application. If you have any questions regarding the Idaho Water Quality Standards, please contact us at (208) 983-0808, or by email at Daniel.stewart@deq.idaho.gov

Sincerely,
