Transfer No. 82046

WATER RIGHT NO. 63-2449

As Modified by Transfer No. 82046

CONDITIONS OF APPROVAL

3. This water right is part of the non-potable water delivery system for the city of Nampa.
4. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 82046. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right at the Mayors Well located in T3N, R2W, Sec. 23, SENW.
7. Transfer 82046 authorizes the following additional well(s):
Locust Lane Well located in T02N R02W S04 SWSE
as a point(s) of diversion under this right as of the date of approval.

Additionally, Transfer 82046 changes the legal description for the following well(s):

East Powerline Well to location in T03N R02W S23 SESW

Indian Well to location in T03N R02W S23 NESW

Chestnut Well to location in T03N R02W S34 SENE

Unnamed Well Near Mayors Well in location T03N R02W S23 SENW

as a point(s) of diversion under this right as of the date of approval.

8. This right does not grant any right-of-way or easement across the land of another.
9. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

WATER RIGHT NO. 63-2449

WATER RIGHT NO. 63-2450
As Modified by Transfer No. 82046

CONDITIONS OF APPROVAL

3. This water right is part of the non-potable water delivery system for the city of Nampa.
4. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 82046. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from an unnamed well near Mayors Well located in T3N, R2W, Sec. 23, SENW.
7. Transfer 82046 authorizes the following additional well(s):
Locust Lane Well located in T02N R02W S04 SWSE
as a point(s) of diversion under this right as of the date of approval.

Additionally, Transfer 82046 changes the legal description for the following well(s):

Transfer No. 82046

WATER RIGHT NO. 63-2943

As Modified by Transfer No. 82046

CONDITIONS OF APPROVAL

3. This water right is part of the non-potable water delivery system for the city of Nampa.
4. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 82046. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right at the Canyon Well located in T3N, R2W, Sec. 21, SENE.
7. Transfer 82046 authorizes the following additional well(s):
Locust Lane Well located in T02N R02W S04 SWSE
as a point(s) of diversion under this right as of the date of approval.

Additionally, Transfer 82046 changes the legal description for the following well(s):

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee.

Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Rachel Neely for: Nick Miller". The signature is written in dark ink and is positioned above the typed name.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 82046 File

FROM: Justin Shearer

DATE: July 19, 2018

RE: Evaluation of Sufficiency of Information Submitted

Transfer 82046 proposes to add 1 new POD as well as changing the legal description for 7 other POD's to 12 water rights for the City of Nampa's well and distribution system that provides municipal water for the City. The POD being added is a well that has been or will be drilled under the 12 rights included in this transfer. Priority dates on the rights range from 1905 to 1982. The sites of the 1 new POD and 7 changed POD's vary throughout the City of Nampa. All rights involved have been licensed or decreed.

Summary of Information Submitted

Authority to File:

Nate Runyan, Deputy Public Works Director, signed the application. Roxanne Brown of SPF Water Engineering, LLC has been acting as a representative for the applicant. Applicant is the water right owner of record for all rights proposed for transfer.

Water Right Validity:

All 12 water rights involved in the transfer have been decreed or licensed. Department records indicate that all 12 rights being transferred are valid and there is no indication to suggest that any of the rights have non-use within the previous, consecutive, five year period. All 12 rights are licensed or decreed as Non-RAFN municipal rights within a municipal service area of an active municipality considered valid with no evidence to the contrary. Therefore, no evidence of forfeiture found.

Overlap Analysis:

POU Overlap: This transfer includes 12 municipal water rights that have all been licensed or decreed. This transfer is not proposing any changes to the approved existing places of use for these rights. Thus, POU overlap is not a concern by this transfer being approved.

POD Overlap: The new POD being transferred is a newly or soon to be drilled well and show no evidence of overlap with existing water right POD's.

Injury to Other Water Rights:

None anticipated. The new POD is not anticipated to reduce the quantity of water available to other water rights. All 12 water rights will be conditioned confirming that the initial point of diversion location for each water right will be maintained for future administration of the rights should future pumping cause well interference/injury issues. Because this transfer is only proposing adding an additional POD to the City of Meridian's well distribution system with no additional quantity in water being requested, and the rights included have all been licensed or decreed, injury to other water rights is unlikely as a result of this transfer.

Enlargement of Use:

None anticipated. The transfer proposed does not increase the amount of water that has been historically used by adding an additional POD to the system. There is no increase to diversion rate proposed by this transfer. Neither the place of use nor nature of use of these water rights will be altered by this transfer. Stacked water rights are not an issue in this instance because the Place of Use boundaries for these 12 water rights will remain the same. These rights are not supplemental and are not changing from their historic beneficial use. The period of use will not be changing as a result of this transfer. The water used under this right is not purposed for confined animal feeding operations, or fish propagations. No changes to the disposal of waste water for these municipal water rights is anticipated as a result of this transfer. No changes to existing POD's under these existing rights that would otherwise enhance the user's water supply is proposed under this transfer. Water being held for reasonably anticipated future needs is not an expected outcome of adding the proposed additional POD's. There is no proposal of the use of stored water under this transfer. No changes to the quantities of water used under these rights to account for additional conveyance losses are being sought through this transfer.

Local Public Interest:

Because of its size the transfer was advertised statewide. There are no anticipated impacts to recreation, fish, or wildlife as a result of this transfer. The transfer complies with applicable water and hazardous substance standards designed to protect the public water resource. The proposed transfer would comply with local and state government regulations, zoning ordinances, and policies. This transfer is compatible with the objectives and policies of the State Water Plan. For these reasons, this transfer should be considered in favor of local public interest. We did not receive any protests to this application, and specifically concerns of (NMID) were addressed by including the following conditions of approval:

-To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, this right retains its original priority for well locations authorized under this right as identified in the [decree or license] dated [decree or license date].

-The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use of where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 82046. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Discussion

It should be noted that the original application for transfer proposed transferring 5.0 cfs. However, because the transfer is adding a POD to all 12 rights, the full amount of all 12 rights (49.04 cfs) should be transferred. The application was amended to reflect this and additional application fees were collected so that processing could continue. Roxanne Brown of SPF provided up to date shapefiles for Municipal service area and POD's. City of Nampa's Municipal service area was updated to reflect the most current

knowledge of said area that the Department has. A condition detailing which wells were being added, which wells' legal description were being changed, and which wells were being removed as a result of the transfer was added to make clear the purpose of the transfer.

Roxanne,

The GPS locations of the wells are not the issue in this instance. What needs explaining and clarification is what is actually being transferred and what is not. The application for transfer includes wells with the same name, but a different legal description from that on the decrees. Please describe whether or not the wells have been replaced and moved, or if the new location is simply a more refined description for the well with the same name on the decrees. What needs to be clarified is what is listed on the decree by name and location for wells in respect to what the name and location of the wells will be.

Please see the previous email in this thread for the wells in question.

Justin – We have done our best to identify existing City wells and corrected many errors in the SRBA decrees as to locations. We can provide GPS data to support the well locations if that would be helpful.

Subject: City of Nampa Transfer 82046

Good evening Roxanne,

While finalizing transfer 82046 for City of Nampa it became apparent that there are some aspects of the transfer that are not entirely clear. Before approving the transfer as it was submitted, we wanted to provide you with the opportunity to clear up or vilify the disparities that we came across in review of the transfer application.

The decrees for the city's rights list 29 well locations. Additionally, the decree for each right included a condition that specified the location and name of the original well(s) used to divert the right. These decree conditions list 30 wells. The application for transfer lists 27 wells including one new well in Section 4. The application omits three of the decreed wells and seeks to change the legal description for six of the existing wells.

The decrees listed the following wells as points of diversion and noted them in the decree conditions by name and location. The application for transfer included these wells with the same name and legal description, so these wells are not in question:

1. 13th Ave. North	T3N R2W S22 NESE
2. 19th South	T3N R2W S27 SENE
3. 4th St South	T3N R2W S22 SESW
4. 6th South	T3N R2W S22 SWSW
5. Birds Eye	T3N R2W S22 NENW
6. Canyon	T3N R2W S21 SENE
7. Colorado	T3N R2W S34 NWNW
8. Grange Park	T3N R2W S17 NWSE
9. High Street	T3N R2W S21 NESE
10. Holly	T3N R2W S27 SENW
11. Hudson	T3N R2W S21 NESE
12. Kohler Lawn Cemetery #1	T3N R2W S15 NESW
13. Kurtz	T3N R2W S34 NWNE
14. Lakeview	T3N R2W S23 SWNW
15. Maple	T3N R2W S27 SWNW
16. Meyer	T3N R2W S26 NWSW
17. Morgan	T3N R2W S20 NESE
18. Phyllis	T3N R2W S22 SENE
19. State Street	T3N R2W S28 NWNE

The Locust well is a new proposed well and its location is not in question:

20. Locust Ln.	T2N R2W S4 SWSE
----------------	-----------------

These three wells are not on the application. Please verify that the wells are no longer in use and are not to be on the water rights following the transfer:

- | | | |
|-----------------------------|------------------|-------------------|
| 21. 19th Ave North | T3N R2W S23 SWSW | No longer in use. |
| 22. Kohler Lawn Cemetery #2 | T3N R2W S15 SWSE | No longer in use. |
| 23. 15th Ave North | T3N R2W S23 NWSW | No longer in use. |

The decrees listed the following wells as points of diversion and noted them in the decree conditions by name and location. The application for transfer includes these wells with the same name, but a different legal description from that on the decrees. Please describe whether or not the wells have been replaced and moved, or if the new location is simply a more refined description for the well with the same name on the decrees.

The following wells have not been moved or replaced. The legal descriptions shown on the transfer application are corrections to the decrees based on GPS data.

	WELL NAME	DECREE LOCATION	PROPOSED LOCATION
✓ 24.	14th Ave North	T3N R2W S22 NESE	T3N R2W S22 SESE
✓ 25.	14th South	T3N R2W S27 NENW	T3N R2W S27 NWNE
✓ 26.	East Powerline	T3N R2W S23 SWSE	T3N R2W S23 SESW
✓ 27.	Fern	T3N R2W S27 SWNE	T3N R2W S27 NWSE
✓ 28.	Chestnut	T3N R2W S34 NENE	T3N R2W S34 SENE

The decrees listed the following wells as points of diversion and the decree conditions listed them by name and location. Please clarify.... It looks like the Indian and Mayor's wells were swapped and the Mayor's well location is maybe just being corrected?

The "near Mayor's" well no longer exists. The locations of Mayor's and Indian are corrections. The wells have not been moved or replaced.

	WELL NAME	DECREE LOCATION	PROPOSED LOCATION
✓ 29.	Indian	T3N R2W S23 SWSW	T3N R2W S23 NESW
✓ 30.	Mayor's	T3N R2W S23 SENW	T3N R2W S23 SWSW
31.	Unnamed Well Near Mayor's	T3N R2W S23 SENW ??	??

Please feel free to contact me with any questions you might have.
