H. NARRATIVE/REMARKS/COMMENTS

DOMESTIC USE: Assessor information per: ArcMap photo (2017), Idaho County confirmed dwelling on site. The Departments taxlot information lists Marta C reyes as current owner as of 6/5/2017, Parcel RP29N08E263471.

Permit was issued with a fish screen requirement. The permit holder submitted a letter requesting a waiver for the fish screen requirement. A waiver is not necessary since the design of the cistern meets the fish screen requirement. The water seeps in from the floor of the cistern through a 4 inch gravel bed. The pump has a foot valve on the system to screen sediment, so the foot valve addresses the fish screen requirement. However, we will leave the condition on the permit to prevent future redesign of the system that could allow fish to enter the cistern or new diversion structure.

Have conditions of permit approval been met? ___x___Yes ___No
