Subject: Water Right 25-12186

Dear Mr. Jordan:

In late 2015 and early 2016 two shallow irrigation wells were abandoned on property the LDS Church owns in Lewisville, Idaho. The property is known as the Lewisville Park property. These two wells were replaced by a single new well. A copy of the well drilling report for the new well is attached to this letter.

Your map records show two locations for wells associated with this water right. The new well is located near one of the wells that was abandoned. We request that the two wells shown on your records be removed and replaced with the single new irrigation well located in the SWNWNE, Sec. 8, T04N, R38E. The well that was abandoned that needs to be removed is located in the NWSWNE, Sec 8, T04N, R38E. I have included maps showing the locations of both the abandoned and new wells.

Your records also show that water right number 25-12185 is located at one of the irrigation well locations. We are filing an application to transfer this right to the correct location, which is shown on the attached map.

The Church is currently in process of installing a meter on the irrigation well as requested in your letter dated May 21, 2018, ID No 120-200352. The letter references the two abandoned irrigation wells. This should be corrected to show only the single irrigation well that currently exists.

If you have any questions concerning this request, please contact me at 801-240-3263.

Sincerely yours,

Mathew Davidson, P.E.
