

STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 251

RECEIVED

JUL 13 2018

DEPARTMENT OF  
WATER RESOURCES

This is to certify that:

OTIS BOOTH RESIDENCE TRUST  
C/O LYNN BOOTH CO-TRUSTEE  
10431 BELAGIO RD  
LOS ANGELES, CA 90077

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

| Water Right No.        | Priority Date | Source       | Diversion Rate (CFS) | Diversion Volume (AF) | Acres (AC) | Rate Per Acre (CFS/AC) | Volume Per Acre (AF/AC) |
|------------------------|---------------|--------------|----------------------|-----------------------|------------|------------------------|-------------------------|
| 37-7059                | 3/11/1970     | GROUND WATER | 0.040                | 7.30                  | 5.60       | 0.007                  | 1.30                    |
| 37-20900               | 1/6/1975      | GROUND WATER | 0.066                | 22.10                 | 6.30       | 0.010                  | 3.48                    |
| Combined Rental Totals |               |              | 0.106                | 29.40                 | 11.90      | 0.009                  | 2.45                    |

**Term of Rental:** This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2020. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2018, whichever occurs last.

**Annual Rental Fee:**

2018 - 2020: \$588.00 annually

The full fee for the rental of the above-described right(s) is \$588.00 per year for years 2018 - 2020. The rental fee includes an administrative fee of \$58.80 per year for years 2018 - 2020.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

| Beneficial Use | Diversion Rate (CFS) | Diversion Volume (AF) | Acres (AC) | Rate/Acre (CFS/AC) | Volume/Acre (AF/AC) |
|----------------|----------------------|-----------------------|------------|--------------------|---------------------|
| IRRIGATION     | 0.106                | 18.60                 | 5.30       | 0.020              | 3.5                 |
| Combined Total | 0.106                | 18.60                 | 5.30       | 0.020              | 3.5                 |

\* The authorized water usage reflects a reduction from the water right elements rented, to account for a concentration of the total diversion rate onto 5.3 acres, with a maximum per-acre diversion volume of 3.5 afa/ac.

Detailed water right conditions are attached.

**RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE**

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
10. Rental does not authorize construction of a well.

STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES

**WATER SUPPLY BANK RENTAL AGREEMENT No. 251**

11. The renter must diligently pursue a permanent water right to provide for the uses authorized under this rental agreement
12. Water rights being rented, when combined with all other rights, shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the above lands.
13. Use of water under this agreement will be regulated by a water master with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
14. A measuring device of a type approved by the Department shall be maintained as part of the diverting works.
15. Diversions of ground water under this rental agreement are authorized contingent on non-injury to prior appropriations. This rental may be modified or cancelled upon a showing that the use of water authorized under this rental may be causing injury to prior appropriators.

**APPLICATION TO RENT WATER  
FROM THE BOARD'S WATER SUPPLY BANK**

RECEIVED

MAR 12 2018

DEPARTMENT OF  
WATER RESOURCES

**Applicant Name:** The Otis Booth Residence Trust c/o Lynn Booth; Co-Trustee

**Is this application being submitted with a lease application as a lease/rental package?**

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at [http://idwr.idaho.gov/water\\_supply\\_bank](http://idwr.idaho.gov/water_supply_bank).

A. Applicant The Otis Booth Residence Trust c/o Lynn Booth; Co-Trustee

Mailing Address 10431 Bellagio Road, Los Angeles, CA 90077

Street City State Zip Code

Email Address office@boothoffice.com Phone Number 310-471-2575

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐  
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Zach Latham Professional Title Hydrologist

Organization Brockway Engineering PLLC Relationship to Applicant Consultant

Mailing Address 2016 Washington St. N Suite #4 Twin Falls, ID 83301

Email Address zach.latham@brockwayeng.com Phone Number 208-736-8543

**2. MAP**

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

**3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER**

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Proposed 3 year rental is for irrigation use under 37-7059 and 37-8153 at applicant's property.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

| Desired Rate<br>(Cubic Feet/Second) | Desired Volume<br>(Acre-Foot) | Minimum Rate*<br>(Cubic Feet/Second) | Minimum Volume*<br>(Acre-Foot) | Desired Acres<br>(if applicable) |
|-------------------------------------|-------------------------------|--------------------------------------|--------------------------------|----------------------------------|
| 0.11 CFS                            | 19.6 AF                       | 0.11 CFS                             | 19.6 AF                        | 9.7 AC                           |

\* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

| Desired Start Date<br>(month/day/year) | Latest Possible Start Date<br>(month/day/year) | *Mark Desired Rental Duration<br>(Calendar Years) |                            |                                       |                            |                            | **Applicant's preference if rental application cannot be processed prior to the latest possible start? |                                                          |
|----------------------------------------|------------------------------------------------|---------------------------------------------------|----------------------------|---------------------------------------|----------------------------|----------------------------|--------------------------------------------------------------------------------------------------------|----------------------------------------------------------|
| 4/15/18                                | 8/1/18                                         | <input type="checkbox"/> 1                        | <input type="checkbox"/> 2 | <input checked="" type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input checked="" type="checkbox"/> Process application as soon as possible                            | <input type="checkbox"/> Return application to applicant |

\* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

\*\* Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO  
WATER RESOURCE BOARD

**Application to Rent Water (Continued)**

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Water is conveyed to rental POU through buried pressurized irrigation system.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

| POD Description | Water Source | Other Water Rights Diverted from this POD |
|-----------------|--------------|-------------------------------------------|
| Domestic Well   | Ground Water | None.                                     |
|                 |              |                                           |
|                 |              |                                           |
|                 |              |                                           |

*If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.*

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒  
If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒  
*Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.*

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒  
If yes, label modeling Attachment 3 H.  
*Rental applications that require modeling will be returned if modeling is not provided.*

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 9.7 (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: \_\_\_\_\_ (mm/dd) to: \_\_\_\_\_ (mm/dd)
- ☐ Stockwater from: \_\_\_\_\_ (mm/dd) to: \_\_\_\_\_ (mm/dd)
- ☐ Industrial from: \_\_\_\_\_ (mm/dd) to: \_\_\_\_\_ (mm/dd)
- ☐ Other: \_\_\_\_\_ from: \_\_\_\_\_ (mm/dd) to: \_\_\_\_\_ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒  
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

N/A

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐  
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

No other irrigation water rights are appurtenant to the proposed rental POU.

STATE OF IDAHO  
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

**Important Information:** Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

| Water Right Elements Leased to Water Supply Bank                                                                                                                                         |               |                      |             |            | Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent | Water Supply Bank Rental Request |             |            |

\*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

Applicant seeks to rent 5.6 acres of 37-7059 for 2.0 acres and 4.1 acres of 37-8153 for 3.3 acres of physical land.

Low diversion rate (37-7059 and 37-8153) requires rental of additional acres in order to apply 0.02 cfs per acre.

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

See previous 2015, 2016 and 2017 WSB rental approvals.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental?

If yes, describe:

Yes ☐ No ☒

N/A.

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV?

Yes ☒ No ☐

If yes, describe the date and location of the NOV.

NOV E2014-691, Dated 11/24/2014.

- D. Additional Information

This WSB Rental application seeks to rent 9.7 acres for the physical irrigation of 5.3 acres on the property.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

**Water Modeling Requirement Information Sheet**

**Information on water modeling requirements for rental requests within special administrative areas**

**Important information on requesting rental water within special administrative areas:** Refer to the information below to determine whether the modeling of potential impacts from your rental request is necessary. Use Section 4 of the rental application to identify selected water rights. **If you submit an application to rent water from within a special administrative area and water modeling is required, your rental request will be returned if water modeling is not provided.**

**Water modeling may be required when an application to rent water involves one of two scenarios:**

**Scenario 1:** The rental request proposes to divert water from a regulated water source and/or within a special administrative area AND the distance between the rental point(s) of diversion (POD) and the POD(s) for the leased water right(s) is greater than the administratively established, acceptable distance.

**Regulated water sources may areas include:**

- A. Ground water resources within the modeled area of the Eastern Snake Plain Aquifer (ESPA) and tributary aquifers;
- B. Ground water within Ground Water Management Areas (GWMAs) or Critical Ground Water Areas (CGWAs);
- C. Water resources within other specified administrative areas, as established by the Idaho Water Resource Board (IWRB) or the Idaho Department of Water Resources.

The distance between any rental POD(s) and the POD(s) for a leased water right to be rented is important. On the ESPA, distance is measured in terms of model cells that cover an area of one square mile. Ground water modeling is not required if lease POD(s) and rental POD(s) are located within the same model cell or within adjacent model cells. If the lease and rental PODs are separated by more than one model cell groundwater modeling must be completed using the IDWR ESPA Transfer Tool and modeling results must be submitted with the rental application. ESPA modeling tools can be accessed and freely downloaded from IDWR's website by visiting: [www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm](http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm).

Ground water modeling may be required within GWMAs, CGWAs or other regulated administrative areas. Applicants who desire to rent water within an established GWMA, CGWA or other regulated administrative area should consult IDWR's website before submitting their application to review the current status of administrative orders related to regulated administrative areas. Consult [www.idwr.idaho.gov/WaterInformation/GroundWaterManagement/designated\\_areas.htm](http://www.idwr.idaho.gov/WaterInformation/GroundWaterManagement/designated_areas.htm) for information on GWMAs or CGWAs, visit <https://idwr.maps.arcgis.com/home/> to use mapping tools to find other regulated areas.

Applicants interested in renting water within a GWMA, CGWA or other regulated administrative areas should request water rights that have been leased into the Bank from within the same administrative area. Generally, the Bank will not permit a rental of water within a regulated administrative area if the leased water rights are not located within that same administrative area.

**Scenario 2:** A rental request proposes to divert water from a different but hydraulically connected water source.

**Modeling situations may include:**

- A. Rental requests that propose to divert surface water rights via ground water POD(s) (wells); and
- B. Rental requests that propose to divert ground water from one aquifer when the right being rented authorizes the diversion of ground water from a hydraulically connected, tributary aquifer.

Rental requests that propose to divert surface water rights from ground water points of diversion may be considered if ground water modeling establishes that the surface and ground water resources are directly and immediately hydraulically connected. An acceptable hydraulic connection occurs when at least 50 percent of the total depletions from a well are detectable from the original water source within a 24 hour period. The existing (leased) POD and proposed (rental) POD must be proximate such that diversion and use of water from the proposed POD would have substantially the same effect on the hydraulically-connected source as diversion and use of water from the original POD.

Requests to rent ground water across tributary aquifer sources may be considered if ground water modeling is provided to demonstrate that two aquifers are hydraulically connected and the anticipated impacts of diverting ground water from one source through the other is modeled accordingly.

For more information about rental application requirements, contact IDWR at (208) 287-4800.
