RE: Water Right Permit No. 63-11119

Dear Permit Holder(s):

The Idaho Department of Water Resources issued a permit for 63-11119 on June 11, 1990. Proof of beneficial use was submitted on June 6, 1996. The enclosed application for amendment includes a beneficial use that was developed differently than what was authorized under the permit. The permit authorized irrigation and domestic uses. On September 25, 1996, a field exam found stockwater and irrigation uses.

By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 30 days, July 12, 2018.

If you have any questions, please call me at (208)287-4881 or sandra.thiel@idwr.idaho.gov.

Sincerely,

Sandra Thiel
Sr. Water Resource Agent
