CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **August 01, 2023**.
2. Subject to all prior water rights.
3. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.
4. This right does not grant any right-of-way or easement across the land of another.
5. Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.
6. The place of use described in this right is located in Utah. Water is delivered through Cub River Canal.
7. This right is intended to mirror Utah water right 25-7162 and represents the same use of water described under that right. This right and Utah water right 25-7162 when combined shall not exceed a total annual maximum diversion volume of 126 acre-feet, or the irrigation of 31.5 acres.

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 13-08021

8. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

Signed this 18th day of July, 20 19.

JAMES CEFALO

Water Resources Program Manager
