Subject: RE: water right transfer application

Michael:

As you know I am the Manager Member of owner (Buster K Ranch, LLC) of Lot 6 Block 1 Crows Nest Estates in Custer County, Idaho. Water Right 34-13931 and now 34-14659. I understood that Water right for our property has been inaccessible. Circumstances beyond our control we have been cut-off from the original irrigation well whereas the point of diversion is located on private property with no known easements or right of way to access our water right. Also, to my knowledge our property has not been irrigated since our purchase due to circumstances beyond our control.

Thanks

Bruce Butler, Manager Member
Buster K Ranch, LLC

Hello Bruce.

Part of our review includes a forfeiture analysis. Please give me a call at your convenience and we can discuss. Thanks.

Michael
