82435

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Cassia Joint School District #151 c/o Ryan CranneyCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes N/A * Means the item is always required and must be included with the application.

- ☐ * Completed Application for Transfer of Water Right form, Part 1.
- ☐ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☐ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☐ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☐ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☐ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☐ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☐ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☐ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☐ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☐ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☐ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☐ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☐ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☐ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☐ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☐ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)
- ☐ ☐ #10 Other. Please describe: _____

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☒ Other split multiple rights

2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.

School district wishes to transfer water right acres from other school properties to the new John Evans Elementary School to irrigate the playground. A new well and irrigation system will be installed at the new school.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Well will be drilled in the Northeast corner of the property. It will feed an underground sprinkler system and irrigate grass surrounding the playground.

- b. Who owns the property at the point(s) of diversion? Applicant

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete [Attachment WSB](#).

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

Lands previously irrigated under the acreage transfered have moved to city water, or improvements on the grounds have replaced irrigated grass. All lands where water will be transfered from will no longer be irrigated by the school district.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

Portions of the ground water rights remaining at current place of use will be irrigated using the existing systems. No other rights exist on those lands. No other ground water rights exist on the lands where water is to be transferred.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- | | | |
|--------------------------|-------------------------------------|---|
| ☐ | ☒ | undergone a period of five or more consecutive years of non-use, |
| ☐ | ☒ | currently leased to the Water Supply Bank, |
| ☐ | ☒ | currently used in a mitigation plan limiting the use of water under the right, or |
| ☐ | ☒ | currently enrolled in a Federal set-aside program limiting the use of water under the rights? |

If yes, describe:

Enter the 'With Transfer' water use for the first 'FROM' Well in Colu

the second 'FROM' well in Column E, and for the third 'FROM' Well

'With Transfer' water use should reflect historical and projected afte

should cease or be reduced at the time of the water right transfer.

Entering 'FROM' Well 'Without Transfer' Use

The 'Without Transfer' Use for the 'FROM' wells should include hist

The projected use should reflect expected pumpage from that well I

Enter the 'Without Transfer' water use for the first 'FROM' Well in C

for the second 'FROM' well in Column F, and for the third 'FROM' w

Prior to the expected date of transfer, the 'With Transfer' use should

If only one 'FROM' well is to be represented, pumpage in columns E

If only two 'FROM' wells are being represented, pumpage in Colum

Projected water use in the 'TO' well and the 'FROM' wells will be us

effect to the river reaches caused by the water right transfer. (See I

Calculating Effect of the Transfer on River Gains and Losses

After all of the above steps have been completed, the effects of the j

of the eleven hydraulically connected reaches of the Snake River ce

CALCULATE EFFECTS' button. This will result in a multiplication

the model runs) times the water use rates entered in the table provi

After the multiplication has been performed, the spreadsheet will au

worksheets. Here one graph is provided showing the effect for each

illustrates the net effects on all 11 reaches. Results are also presen

EFFECTS worksheet. See the Users Manual for more information.

RE: Transfer No. 82435
Water Right No(s). 45-11900, 45-7207, 45-7208, 45-7236

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the TIMES NEWS on 7/19/2018 and 7/26/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

RE: Transfer No. 82359
Water Right No(s): 45-7207, 45-7208, 45-7236, 45-11900

Dear Brian:

The Department of Water Resources is seeking written comment and/or recommendations from you regarding the above referenced water right application for transfer. You can find a copy of the application at:
<http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the water master, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Jean Hersley

Re: Review & Evaluation of Sufficiency of Information

The department received this application from Water well Consultants on behalf of Cassia Joint School District #151 on June 6, 2018. This application proposes move portions of 45-7207, 45-7208, 45-4236 and 45-11900. These water rights currently provide irrigation to four different schools. The split portions are proposed to provide irrigation at the newly constructed John V. Evans Elementary School on the South Side of Burley. They wish to change the POD for the split portions of all of the water rights listed above. The proposed well would be in the SENE, T10S, R23E, S31. This is located West of Park Ave and South of 100 South Rd in Cassia County.

The calculated amounts proposed for transfer are 0.151 cfs and 30.18 af and 7.5 acres by calculating from the proposed amounts for split as shown on page 3 of the application. The application is confusing because they listed the entire rights on Part 1B as total authorized under rights after the requested changes. By calculating from the volume to be transferred, the \$500.00 fee received for the transfer would be the correct amount. However, since the volume does not address storage, the correct amount should be based on the rate and would come to \$200.00. Therefore a refund request will need to be made for this application.

They further confused the application because the applicant did not reduce the number of acres nor did they reduce the rate or volume proposed after the transfer is complete on parts 2B. However, by using the map and the rate to be transferred provided, I was able to determine what acres and amounts the applicant will move to the new location.

Authority to File:

Current Cassia county tax lot data lists ownership of the property for this place of use as owned by Joint School District #151. The application was signed by Gaylen Smyer (School Superintendent) and Ryan Cranney (School Board Chairman).

Water Right Validity:

45-7207, 45-7208, 45-7236 and 45-11900 were decreed in the SRBA in 2005. A review of the water rights shows that these rights are not subject to forfeiture at this time.

Injury to Other Water Rights:

This transfer will not authorize any additional diversion of water nor any additional irrigable acres. The move takes place in the ESPA. Modeling was provided and checked to be sure that mitigation is not required for this move. (Note: the modeling provided showed a start date of 1980, the earliest water right has a priority date of 1956. I ran my check with the correct dates.) This school sits between Harrison Heights Subdivision and Sylvan Acres Subdivision. This application will be advertised to address any concerns of owners of neighboring wells. Apex Drilling has requested notification if there are any delays in the approval of this application.

Enlargement of Use:

Three of the existing schools fall within the service areas of Burley Irrigation District and the City of Burley. The other one falls within the service areas of Burley Irrigation District and the City of Delco. Part 1 5. (e.) on the application states, "All lands where water will be transferred from will no longer be irrigated by the school district." These rights were developed as primary water rights without use of irrigation shares. The new POU was irrigated in the past by irrigation shares from Burley Irrigation District. The school has

retained these shares. However, they are unable to deliver the water to the POU due to easement issues.

Local Public interest:

The place of use and points of diversion of the current water rights and the proposed fall within Eastern Snake Plain Aquifer Ground Water Management Area. All of these rights and the new points of diversion fall within Water district 140. Comments will be requested from the watermaster to identify any local public interest concerns. There are no apparent issues identified and the application will be advertised for public comment.

Beneficial Use/Conservation of Water Resources:

This proposed transfer will not change the authorized beneficial use under these rights. The transfer appears consistent with the conservation of water resources in Idaho.

Effect on Economy the Local Area:

No effects are anticipated.

Effect on Agricultural Base of the Local Area:

With no additional acres irrigated and no additional water diverted, this application will have no effect.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Ryan,

It was addressed like it was at the top of the letter (see below). I will need to add Mr. Loveland to the water right database so that he will get copied on any mailings from the department. Is it possible to get his mailing address and phone number? Thanks.

Subject: Re: Water Rights Transfer application 82435 for John V Evans Elementary School

Clay,

1. I initialed the changes on page 3. I was not sure exactly where you wanted it but it is on the bottom of the page.
2. Doug Whipple is no longer the attorney representing our school district. It is now Lance Loveland out of Burley. His email is love9593@pmt.org and I have copied him on this email.
3. The property was last watered in 2016 with BID shares. The school district still owns the shares but the neighboring farm is not being cooperative and will not grant us an easement to run a waterline from the canal to the school property. This has been very frustrating and is one of the reasons the school district chose to drill a well.

Thank you,

Ryan Cranney

Chairman Cassia County School District 151

**RE: APPLICATIONS FOR TRANSFER OF WATER RIGHTS 45-7207, 45-7208, 75-7236
AND 45-11900. (82435)**

Dear Applicant:

The Department of Water Resources (Department) received your application to transfer the above mentioned water rights from you on June 6, 2018. The department is required to evaluate these applications in accordance with Idaho Code § 42-222. Initial review found that we need additional information for clarification of your applications. The following is a list of items that need to be addressed prior to further processing of these applications;

- I have included a copy of the Application for Transfer page 3 with edited amounts to show what the Summary of Water Rights After the Approved Change. Please initial the changes and return this to be added to the application.
- We currently have Douglas R. Whipple listed as the attorney representing School District # 151. You did not identify him as a representative on your application. Please advise if he continues to represent the school district.
- Review of aerial imagery shows that the property for John V. Evans Elementary School has been previously irrigated as recently as 2016. Please provide information on how this was accomplished (i.e. irrigation shares from Burley Irrigation District or a privately owned water right) and the disposition of irrigation shares or water rights used previously on this proposed place of use.

The department will not be able to proceed with processing this application until we have received the requested information. Please provide the requested information within 30 days to allow the application to be processed.

If you have any questions on this matter, please contact me at (208) 287-4910.

Sincerely,

Clay Webster
Water Rights Supervisor

**DEPT OF WATER RESOURCES
SOUTHERN REGION**

Dear Sir or Ma'am,

This letter describes the modeling accomplished using the Etransfer tool Version 3.3 for Cassia County School District #151. The school wishes to transfer a portion of four existing rights to the site of the newly constructed John V Evans Elementary School on the South side of Burley, Idaho. Water right 45-7236 is within the same model cell as the new point of diversion and was not included in the modeling analysis. Two other rights, 45-11900 and 45-7207, are in an adjacent model cell but were included in the analysis. Please let me know if this was done in error.

The school district wishes to transfer 6.25 acres to the new place of use which equates to a rounded 25 acre-feet (one water right is allowed slightly less than 4 ft/acre). A rounded 21 acre-feet will be transferred from those diversions outside of the "to" model cell. Below is a table of the inputs used for the Etransfer tool.

	Current Volume	Transferred Volume	Remaining Volume
45-7208	44	10.28	33.72
45-7207	72	9.16	62.84
45-11900	52	6.48	45.52

	Current Volume (per Tri)	Transferred Volume (Per Tri)	Remaining Volume (Per Tri)
45-7208	15	3	11
45-7207	24	3	21
45-11900	17	2	15

Results of the model run indicate there will be no impact to any given reach of the river greater than 0.02 acre-ft per trimester.

Sincerely,

Jaxon Higgs
