LaVon Burgess-Benck
710 N Florence St
Shoshone, ID 83352

Dear Ms. Burgess-Benck

Water District 37 has been notified by the City of Shoshone that you intend to change the point of delivery listed by the state of Idaho from the city pump to a point of diversion on the Little Wood river.

This letter is to serve as notice that you will be required by the State of Idaho to officially transfer water right 37-177H from the #69-P2 pump to a new point of diversion. The existing diversion point was established during the adjudication process in 1988 by Jake and Mary Sullivan and recorded with the adjudication court as civil case number 39576. A new point of diversion will need to be established at a specific point on the Little Wood river.

An application for transferring the point of diversion has been enclosed along with a copy of the water right and adjudication court document referencing the case number. A copy of this letter will be forwarded to the Idaho Department of Water Resources for their files.

Please complete the transfer and return it to the Idaho Department of Water Resources at your earliest convenience. If you should need assistance in determining the legal point of diversion or have other questions, please contact Water District 37 at (208) 886-2451 or the Idaho Department of Water Resources at (208) 736-3033.

Thank you,

Kevin Lakey
Watermaster
