RE: Water Right Forms and Instructions

Dear Sam Lohr:

It was a pleasure to speak with you this morning. I have enclosed several documents for your use. They are:

- 1) A copy of the Application for Permit form and instructions.
You will need this form if you decide to use your well for irrigation of your property instead of using shares from the ditch company.
- 2) Copies of the SRBA (Snake River Basin Adjudication) decrees and maps of the place of use and point of diversion that I created for the two water rights that appear to be attached to your property. The water rights are 63-21066 and 63-21067. They are both still in the name of William A Borders.
There may be some confusion about the location of the well for Right 63-21066. On the map it is located in your neighbor's property to the north.
- 3) A copy of the Notice of Change in Water Right Ownership form.
I filled in the water right numbers. You'll need to fill in the other blanks

If the ditch company can provide you the shares that you need, then you may not want to file for a new permit of your own.

Whether or not you apply for a new permit, I recommend that you get at least one of William Border's water rights updated and in your name.

You will need to submit these to IDWR's Western Region Office for processing. Their address is 2735 Airport Way, Boise ID 83705. But feel free to contact either us at the State Office 208-287-4800 or the Western Region Office at 208-334-2190, if you have any other questions.

Sincerely,

Michele Edl
