APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Points of diversion will not change. All points are regulated by the watermaster for Water District 290 (Bannock Creek).

- b. Who owns the property at the point(s) of diversion? Applicant, Jeffrey & Sherri Stewart

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Points of diversion are not changing.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: N/A Water rights are not being moved off of my property. Place of use is being rearranged and consolidated for more efficient irrigation.

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

Rearranging place of use under existing water rights. Only the acres described above will be irrigated. All other acres will be dry farmed.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

None

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☒ ☐ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

75 acres of my property was enrolled in CRP program for over 15 years, came out in 2011. Remaining acres were irrigated when possible. Rattlesnake rights are very junior and are not available in drought years. The drought years of 2012, 2013 and 2016 would not count toward forfeiture because water was not available.
