EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 82053
FROM: Rachel Sommer
DATE: April 24, 2018
RE: Evaluation of Application

Summary of Application Proposal

On December 1, 2017 Transfer No. 82053 was submitted in the name of Jack post. The applicant (Post) recently acquired a portion of right 2-2418 and was assigned right 2-10545 to represent his portion of the right. The land associated to the right was not conveyed to Post. This transfer proposes to change the place of use on right 2-10545 to describe property owned by the applicant, approximately two miles west, and create an 80 acre permissible place of use. This would affect the entire irrigation right; 0.54 cfs, 165.4 af, and 27.0 acres.

Location of Application Proposal

The proposed place of use is located between 20 Mile Rd and A&A approximately one mile west of Mud Flat Rd and four miles south of Snake River and Grand View, Idaho in Owyhee County.

Summary of Information Submitted

Authority to File:

Jackie "Jack" Post is the current owner of record for right 2-10545, current land owner of the proposed place of use, and the signee for this transfer. The applicant is also the owner of record for the associated right within this transfer, 2-10316.

Water Right Validity/ Historical Beneficial Use/ Water Supply Bank:

Right 2-2418/2-10545: priority date 2/8/1964, decreed 6/15/2009.

Right 2-10545 authorizes 0.54 cfs and 165.4 af for the irrigation of 27.0 acres. Use of the right cannot be confirmed for years 2010 through 2014. Of right 2-2418, 32 acres were placed in the Water Supply Bank for a portion of year 2015 and 27 acres of these rights were conveyed to Post in November of 2017; see the attached Ownership Transfer of Water Right. Use of the right cannot be confirmed for years 2016 through 2017. Therefore, the rights validity is in question because appropriation of the right has not occurred within the previous, consecutive, five-year period.

On January 11, 2018 discussed with Post that the validity of the right was in question and requested he provide written documentation demonstrating the right had been used within the last five years, a defense to forfeiture, or a withdrawal of application for transfer. On January 25, 2018 a defense to forfeiture statement was submitted explaining the water rights were purchased on November 1, 2017 and that they had been purchased without the land and without any knowledge of a forfeiture issue. Post stated he also contacted the previous owner who expressed no knowledge of forfeiture either. During several phone conversations with Post and his secretary, Chris Alzola, they explained the rights were also presumed valid because they were placed in the Water Supply Bank and that the release of the rights in December of 2015 would essentially reset the five year forfeiture clock and leave the rights protected through year 2020. A transfer approval would allow Post the opportunity to fully appropriate the water rights. The defense to forfeiture appears to be in line with Idaho Code 42-223. The application was advertised and protests were not received, therefore, transfer processing will continue.

Overlapping POU/POD:

POU overlap:

- If this transfer is approved, right 2-10545 will authorize 27 acres of irrigation within an 80 acre PPU (40 acres in the L4NWNW and 40 acres in the SWNW). Right 2-10316 authorizes 80 acre of irrigation within a 160 acre PPU that also allows irrigation of 40 acres in the L4NWNW and 40 acres in the SWNW. The applicant expressed to me and described in Transfer 82053 (Page 2, item A.2) no overlap of rights 2-10316 and 2-10545 will occur. Combined use limitations will be added to the rights to ensure no enlargements will take place.

POD overlap:

- No changes to the POD are being requested. However, multiple rights operate from the same diversion system.

Associated Rights:

Right 2-10316, in the name of Jackie Post, will overlap with right 2-10545 if this transfer is approved. Therefore, right 2-10316 will be added as an associated right to this transfer so that combined use limitations may be added.

Injury to Other Water Rights:

There should be no injury to other water rights under this transfer as long as the new right holder abides by the amount of water that is appurtenant to this property.

Enlargement of Use:

No enlargement should occur under the proposed transfer application. The application proposes to change the place of use on right 2-10545 to describe property owned by the applicant, approximately two miles west. No new irrigation water is sought under this proposal.

Local Public Interest:

It is within the local public interest to allow property owners to develop their property as long as the application is processed without issues.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

Legal Notice:

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Forfeiture of the right within this transfer was questioned, therefore, public notice is required.

Summary of Application Approval / Denial

The application is consistent with criteria of I. C. § 42-222 and should be processed. Protests were not filed and other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.
